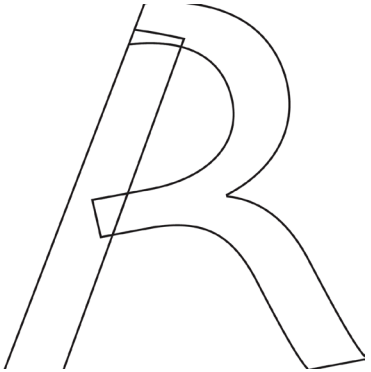
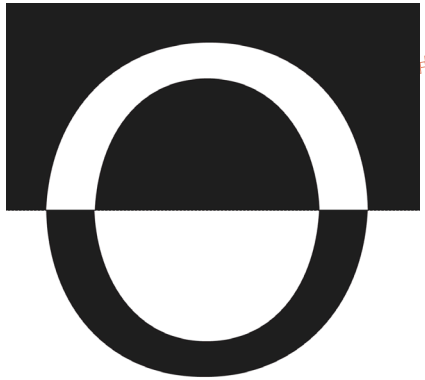
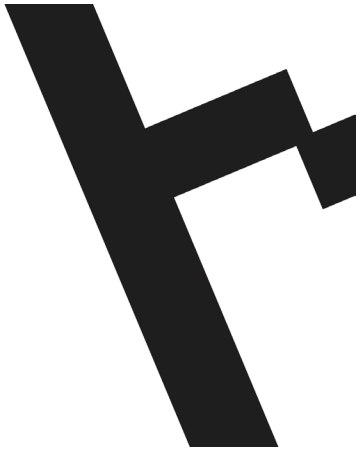
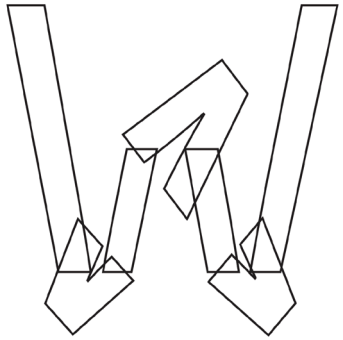
EMILY JACKSON | INTERACTIVE DESIGNER

PORTFOLIO



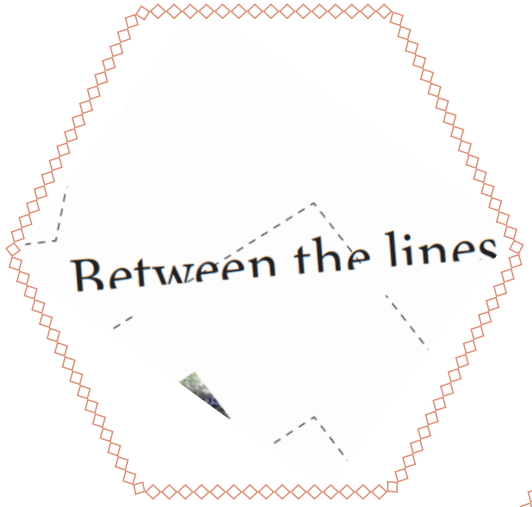






Typography experiements | I explored through visual research how a letter retains meaning through addition and reduction of letterform elements.

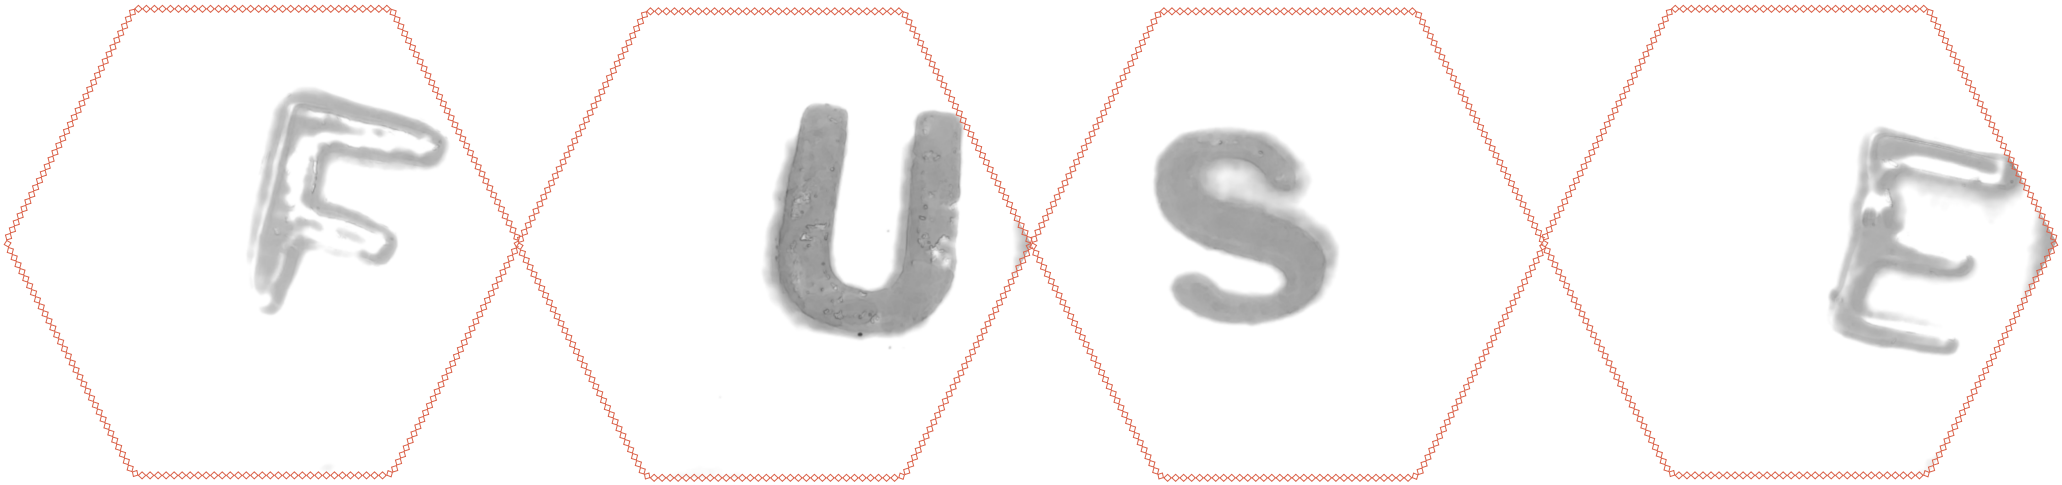
Branding

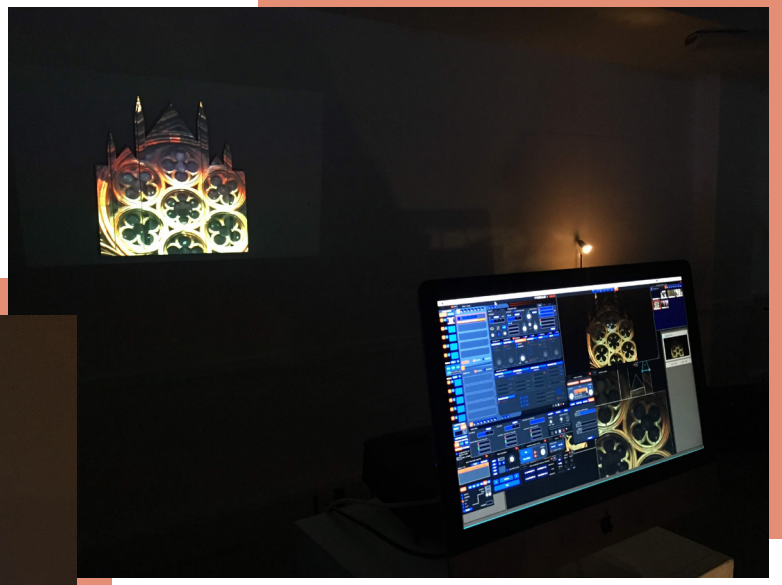


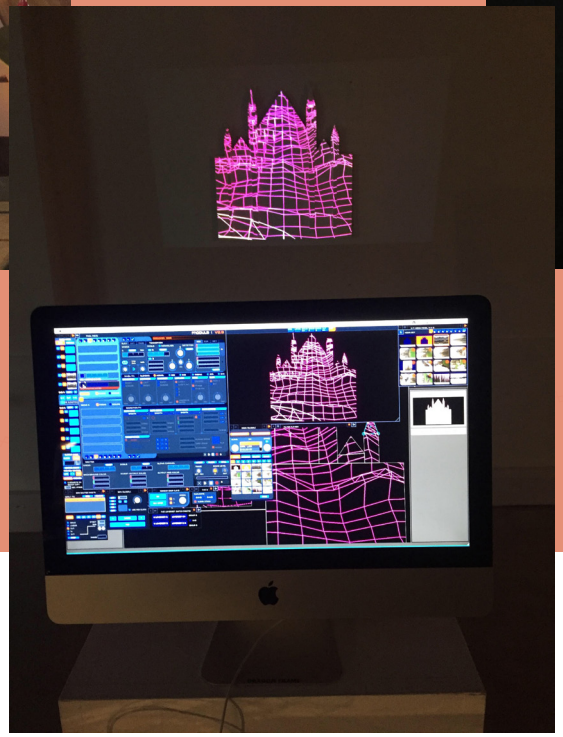
Poster design | This poster is based of the architect Daniel Libeskind and i used his work to create this poster based on the Jewish museum in Berlin.

Animated alphabet | I created an animated alphabet using jelly, i made it in to a little animated clip with audio over the top.

ANIMATED ALPHABET

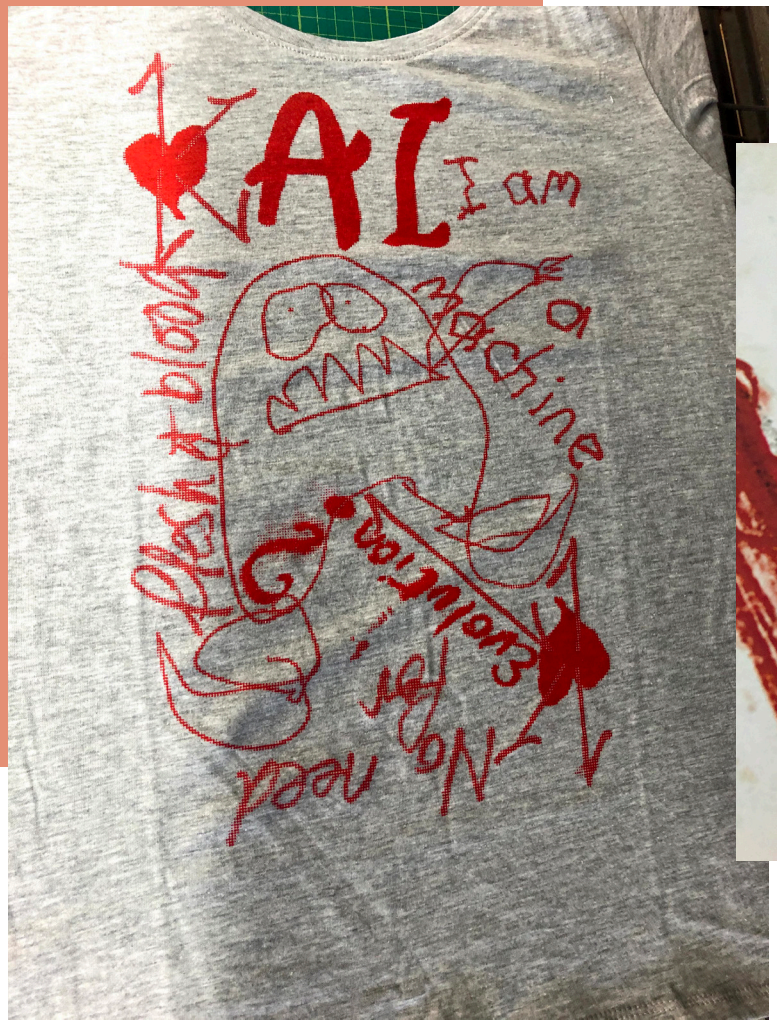






Audio Visual | I created this projection mapping art piece based on the Lincoln cathedral using different metal's as controls.

Audio Visual



Augmented reality | This work is inspired by Vivienne Westwood, i printed her playing cards on to t-shirts and created augmented reality over the top to show what she was wanting to show in a different way.
