01: The World Illustration Awards - What I Hold Close To My Heart...

This Brief allowed me to express what I held close and personal and present that into a project, I played around with multiple ideas but held the memory of the loss of my dog Gizmo and the love I have for my Nanny who looked after me for years as my most to heart memories that i wanted to illustrate. Here is my wonderful girl in her favourite field, she was always such a good girl.

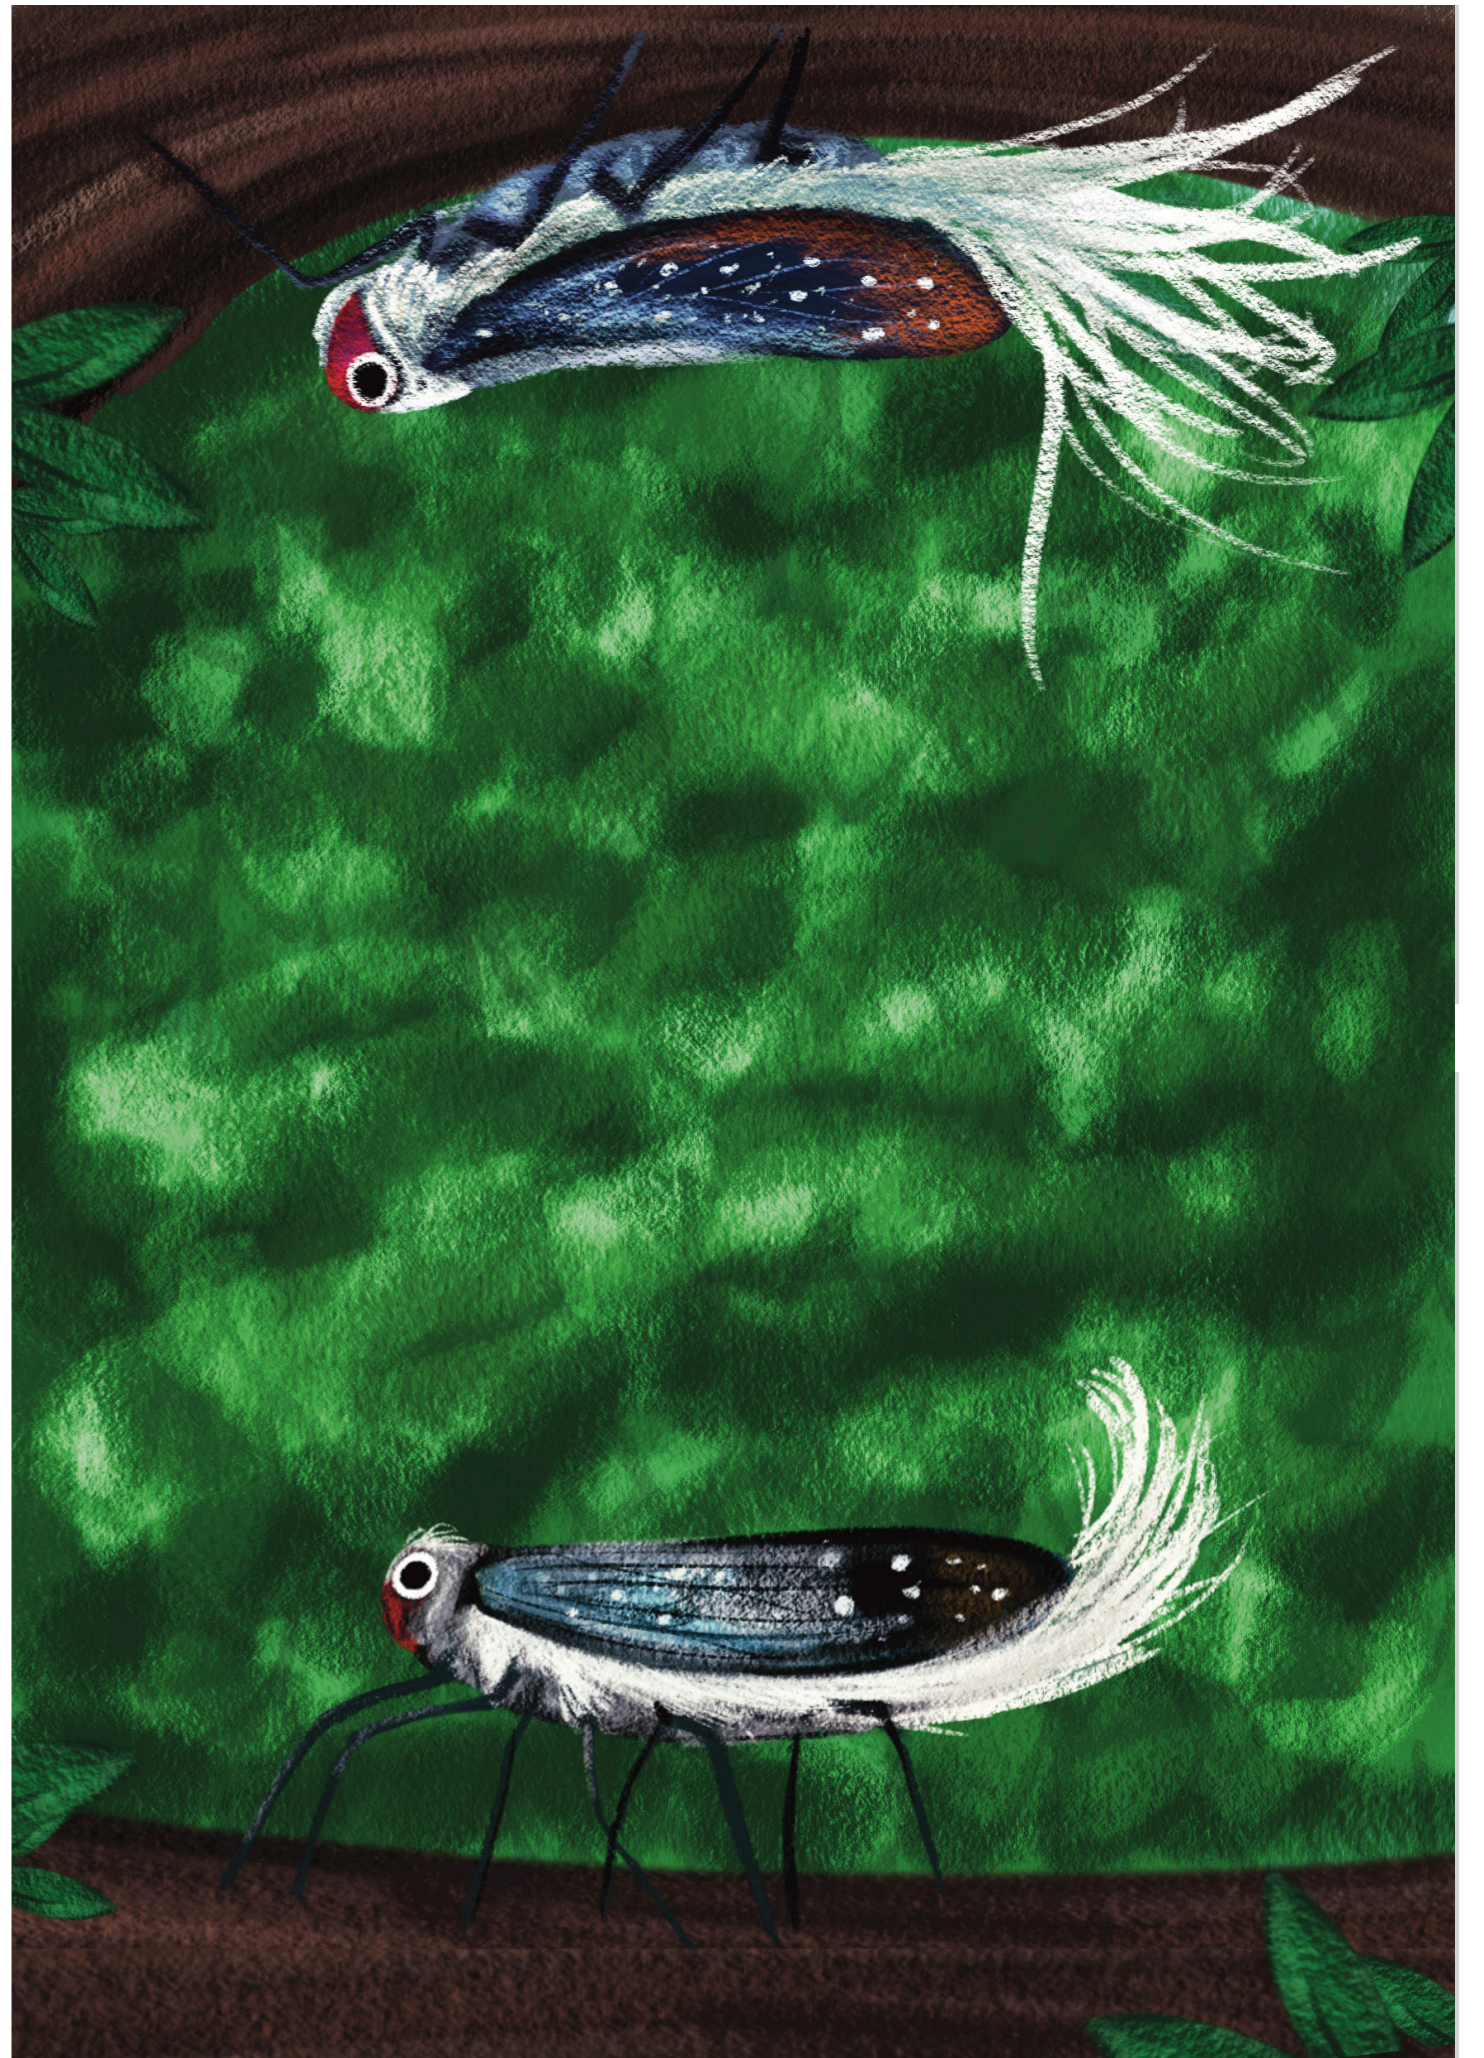

01: The Insect Book - A Book on Unique Insects

This brief was to give creative freedom on what we as artists wanted to do in the future, I knew from the start that I wanted to illustrate a book and when looking at what I was inspired by I started illustrating insects. These examples here are my sketches of insects when learning proportions and some pages from my book that I mocked up, some of my favourite pages are here.

01: The Merchandise Brief - Making Sticker Sheets and Prints!

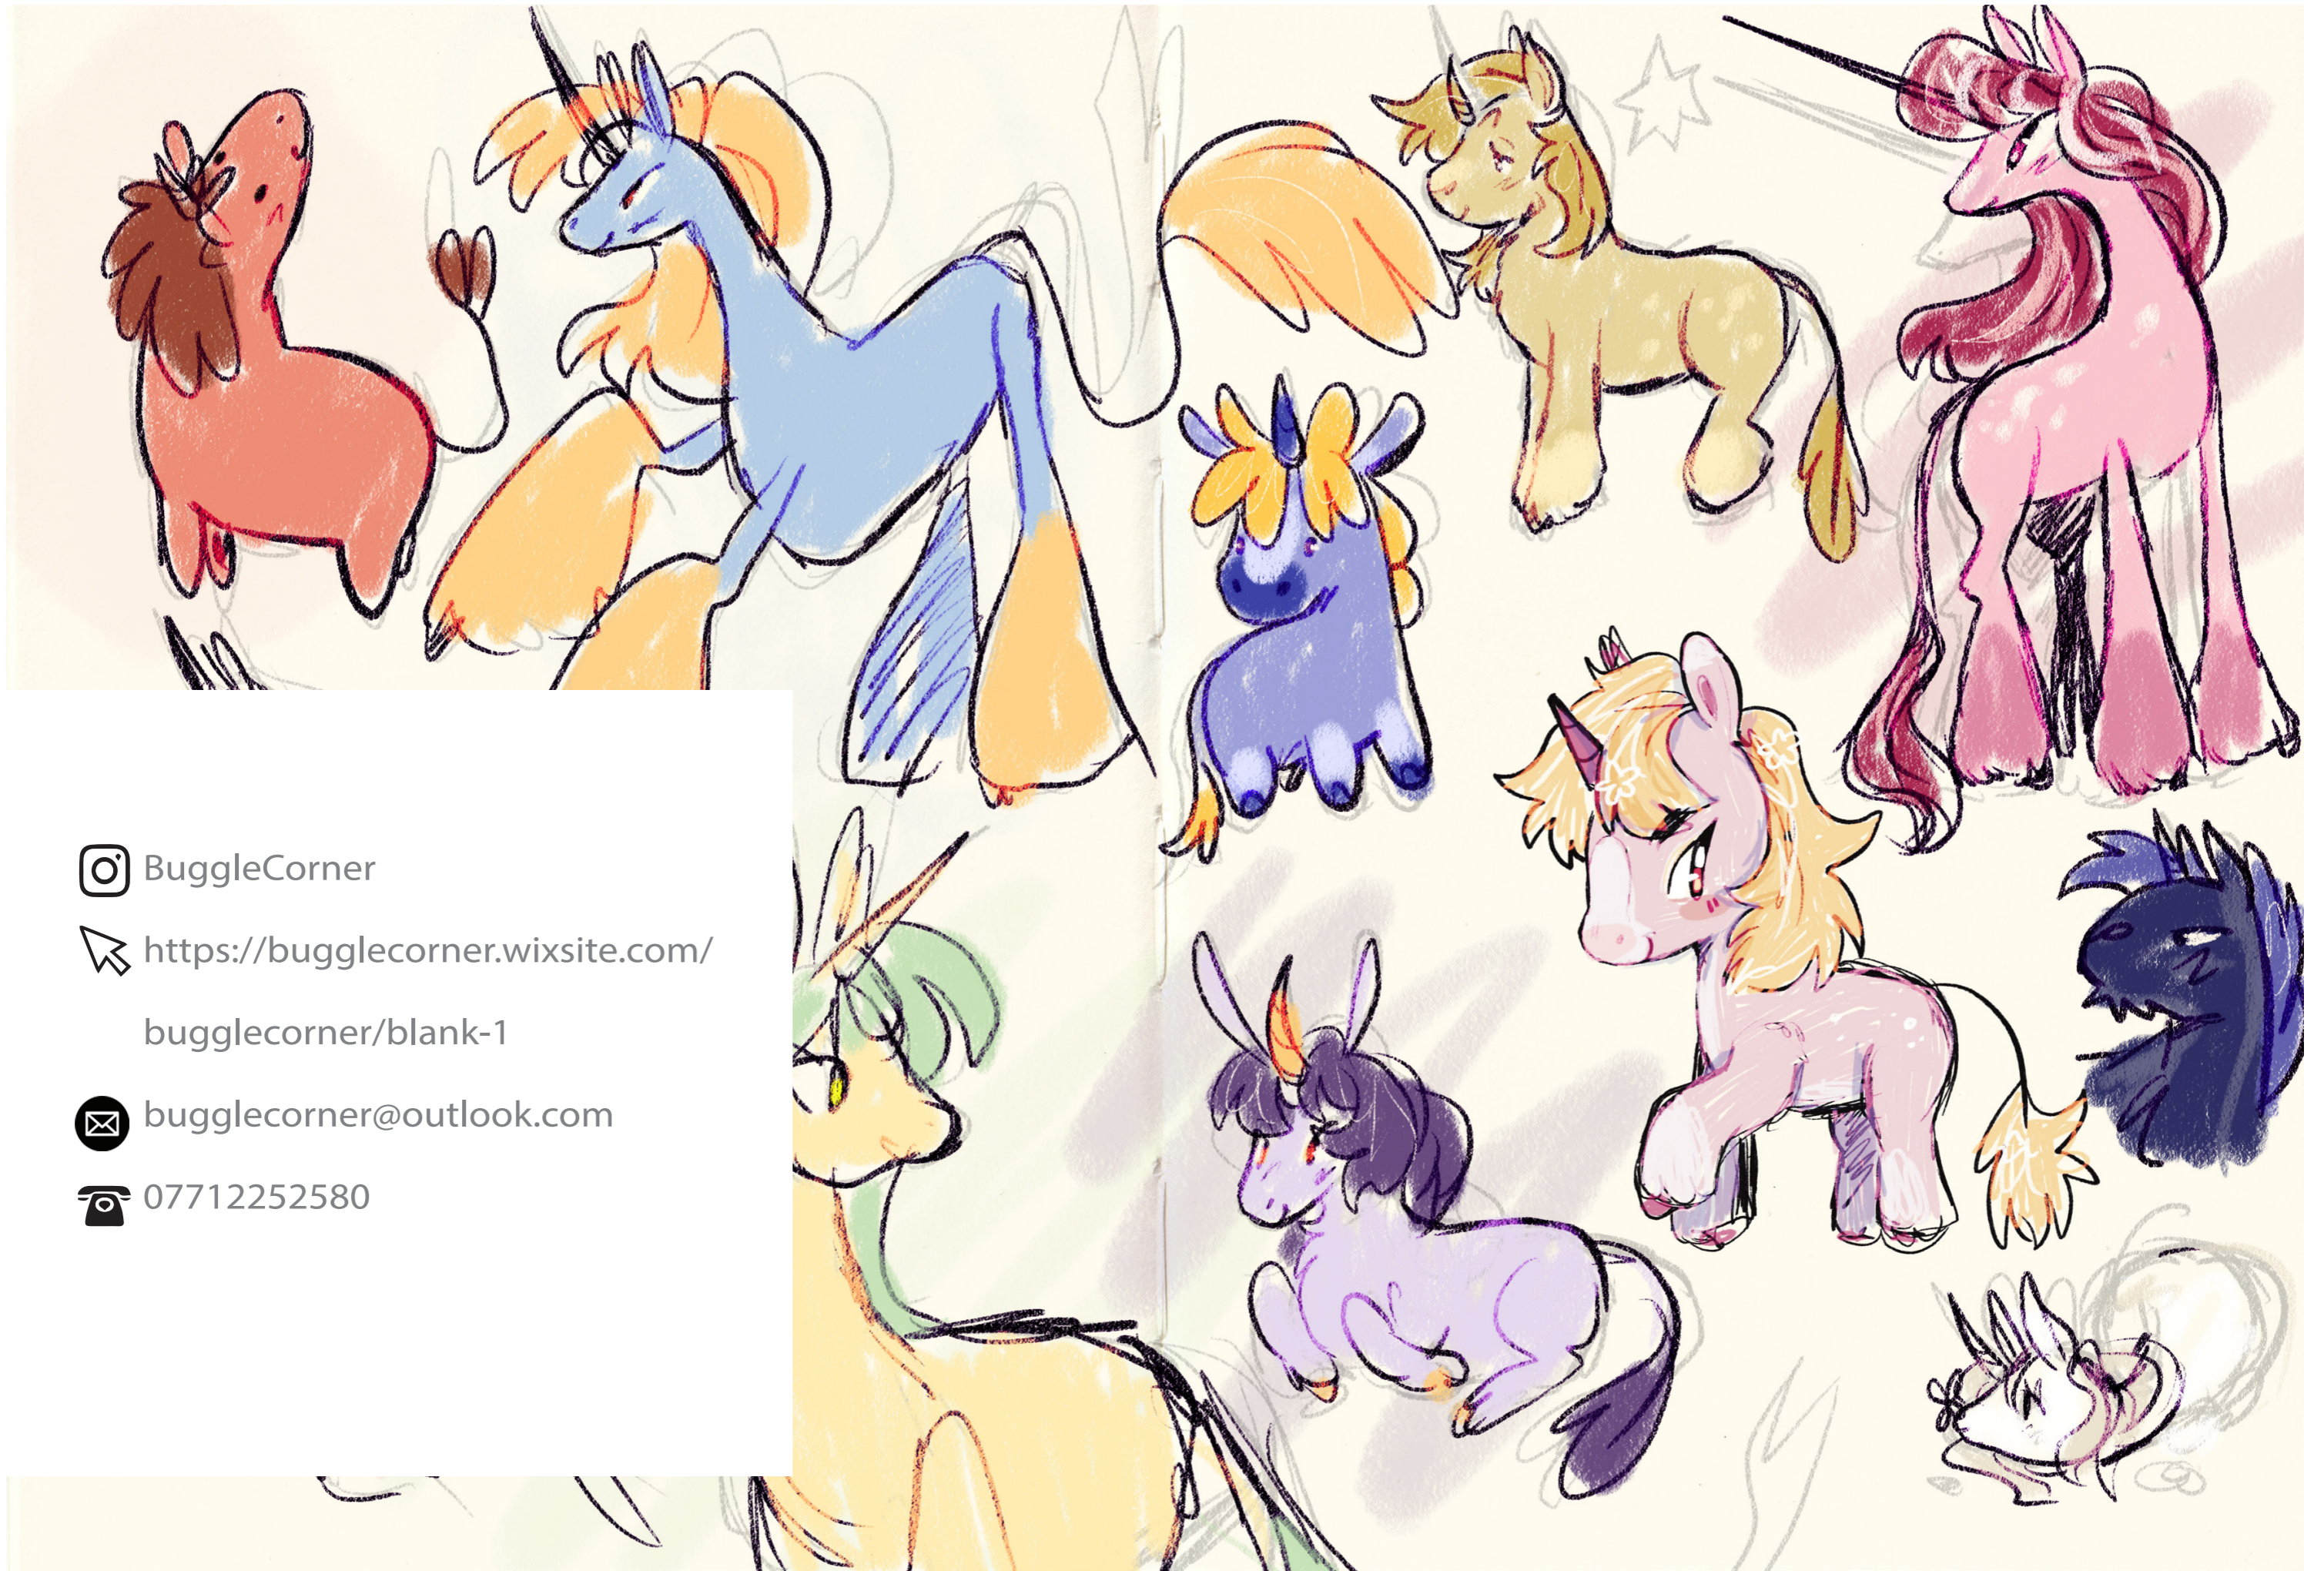

This brief allowed us to design merchandise that fit into our brand, my artwork has always included animals and little cute characters, this selection of artwork is to show some of my favourite designs that I used to make items that I believe suited my brand and future art style.
