Unreservedly optimistic,
unquestionably attached
to all things beautiful.

01: Audience & Message

in this project I had to create an album cover for an artist. I was given a list of artists to pick which I picked the artist Dilettante. I went through their albums and picked their album Tantrum. I then listened to their songs and tried to reference them on the album. For the cover I illustrated the artist crying with clocks and number in the eyes. I also made the text fall with the tears. for the back I drew a hourglass, fish and teeth which reference certain songs.

MEDIUM

LARGE

with the album cover I created merchintdise to go with it. I created stickers and a illustration for a t-shirt. The stickers I have created are reference to each song. For the t-shirts I've illustrated a hour glass with teeth inside and a fish in the corner which all reference songs on her album.

02: Books and Storytelling

For this project I created a children's picture book about sharing and feelings. In this book it follows my niece Ella and my late dog Lily. In the story my niece didn't want to share her favourite spot on the sofa which causes an accident. She then learns how to calm down, apologise to Lily and how to share.

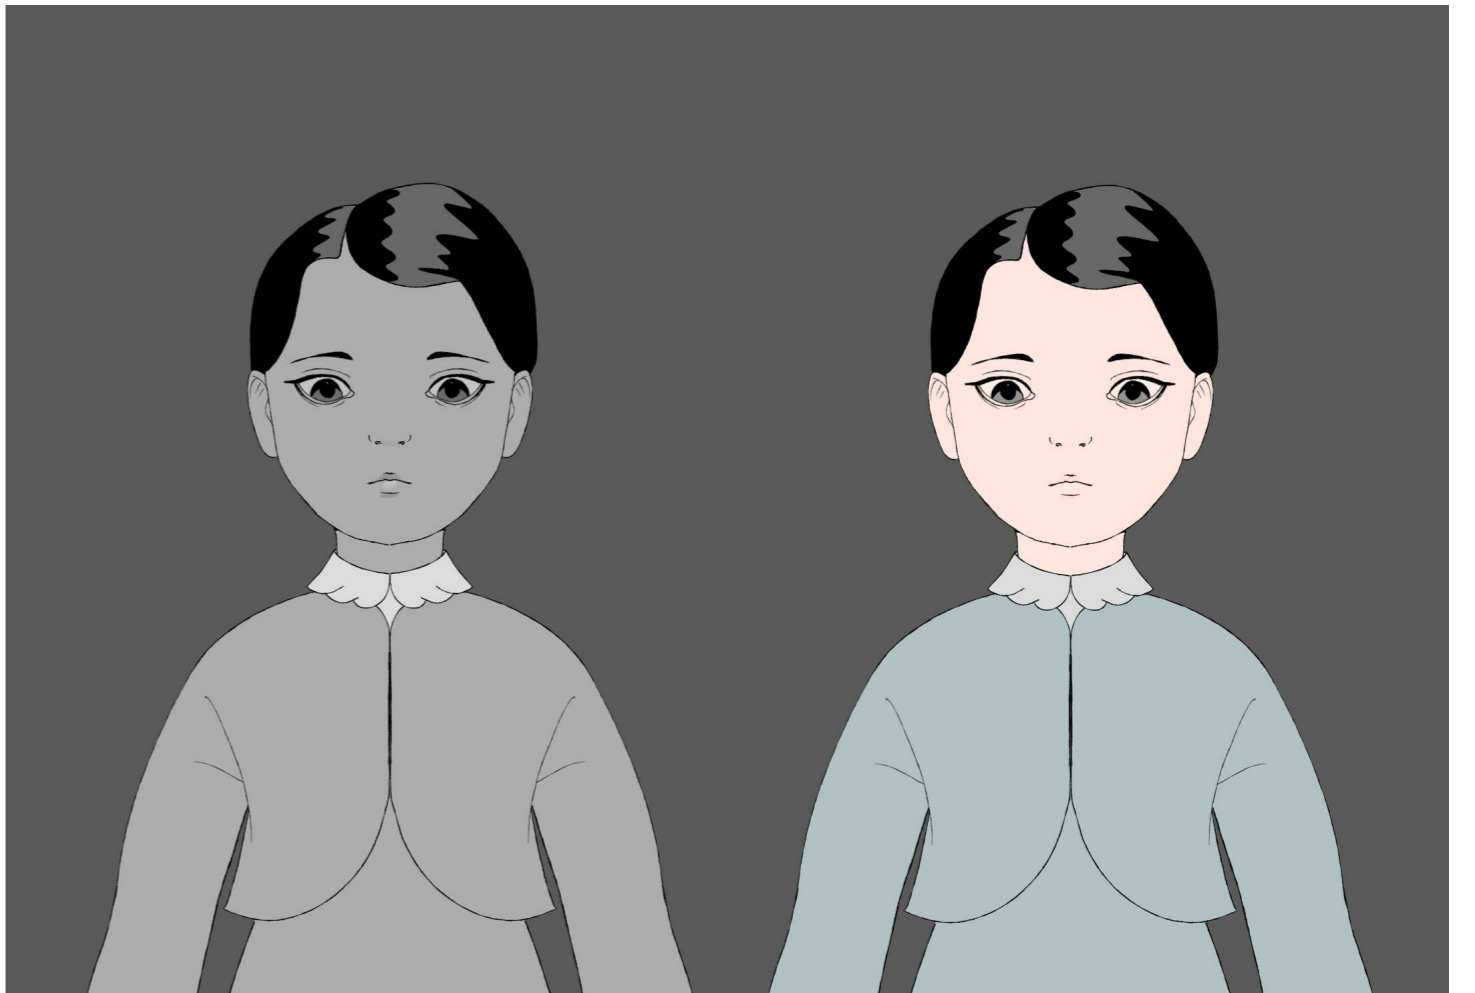

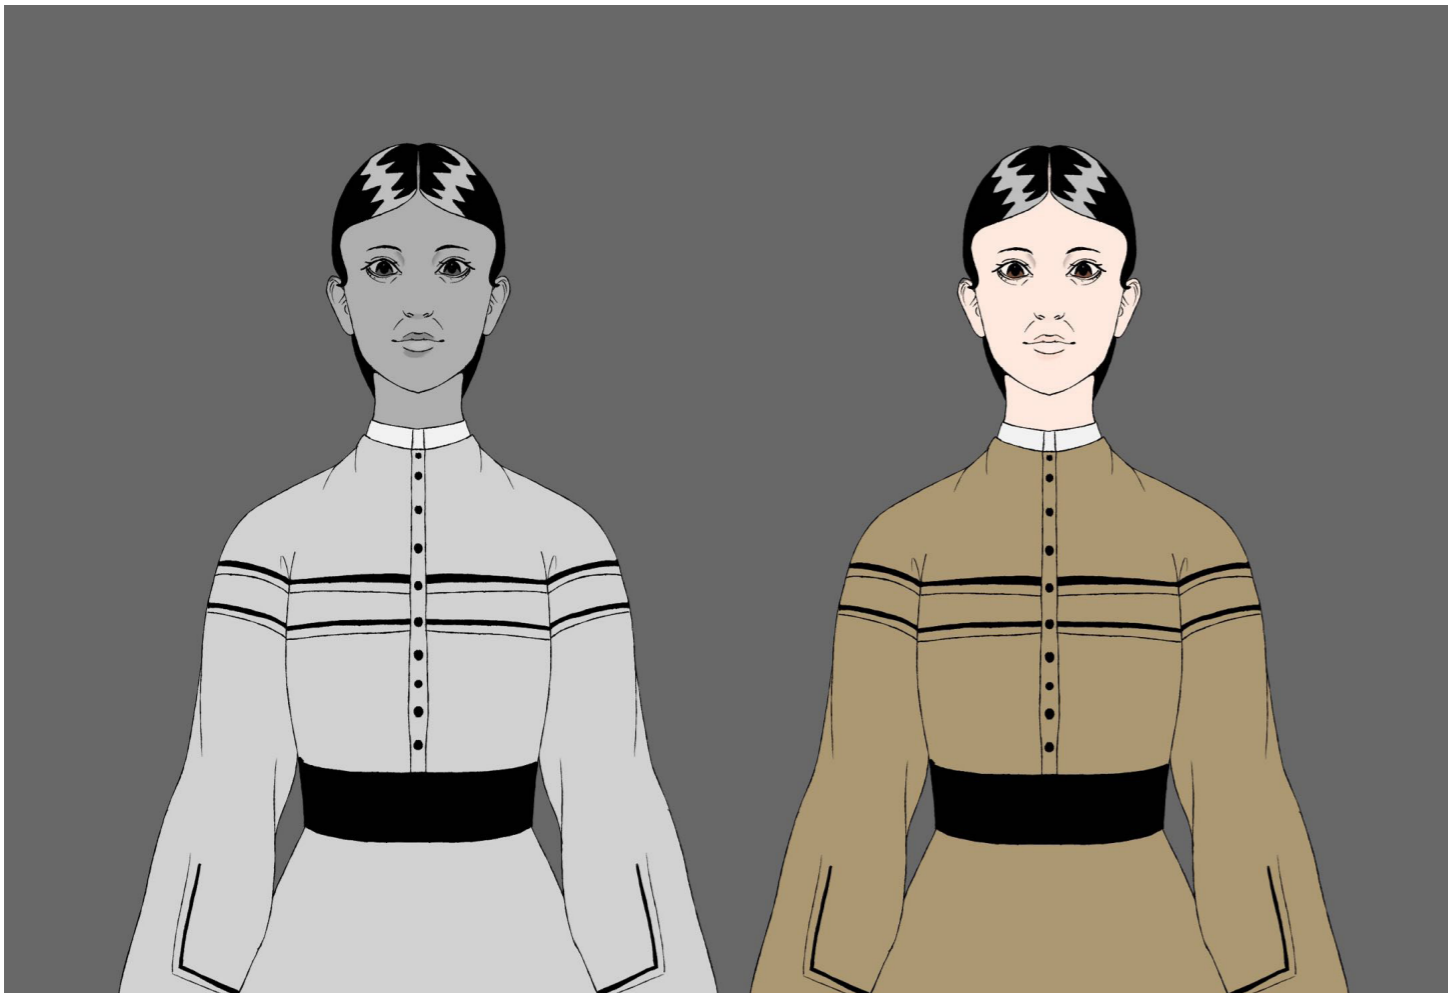

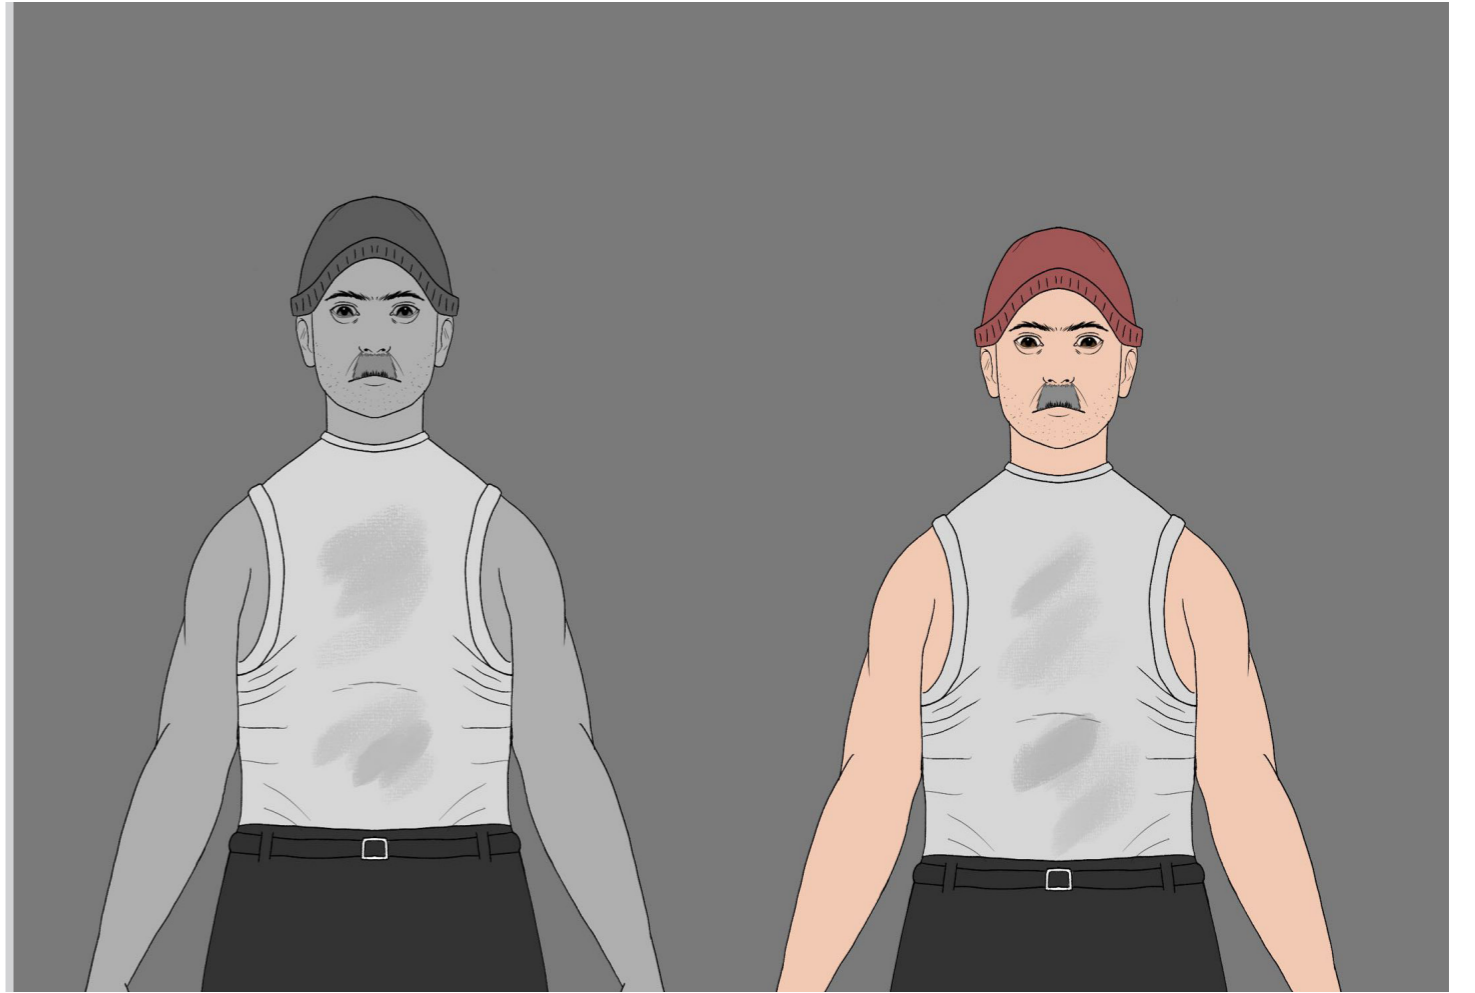

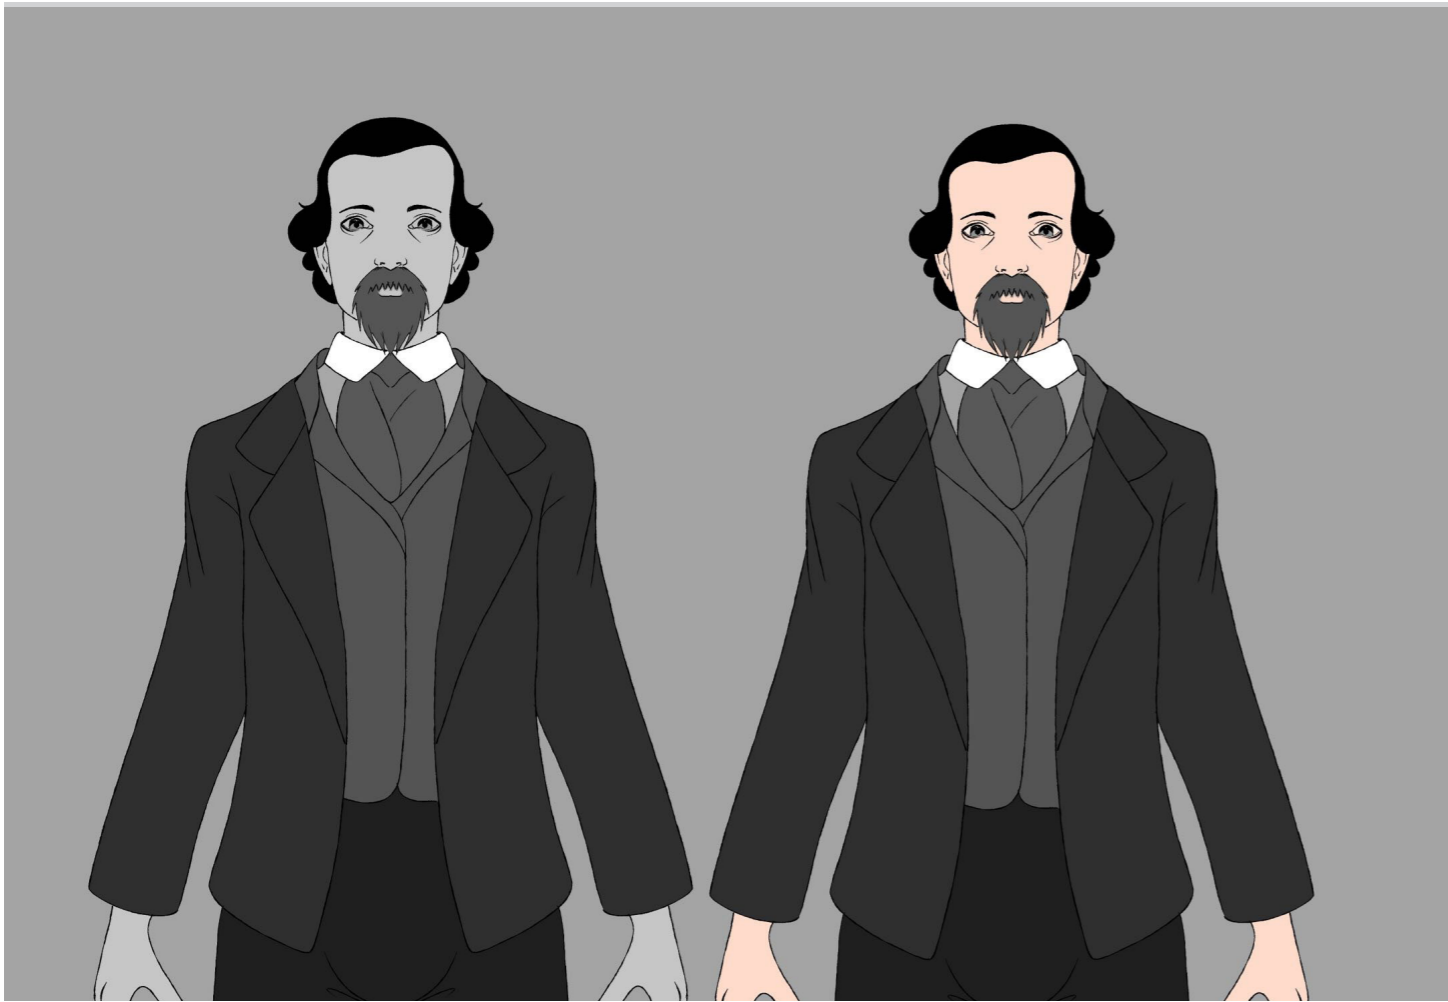

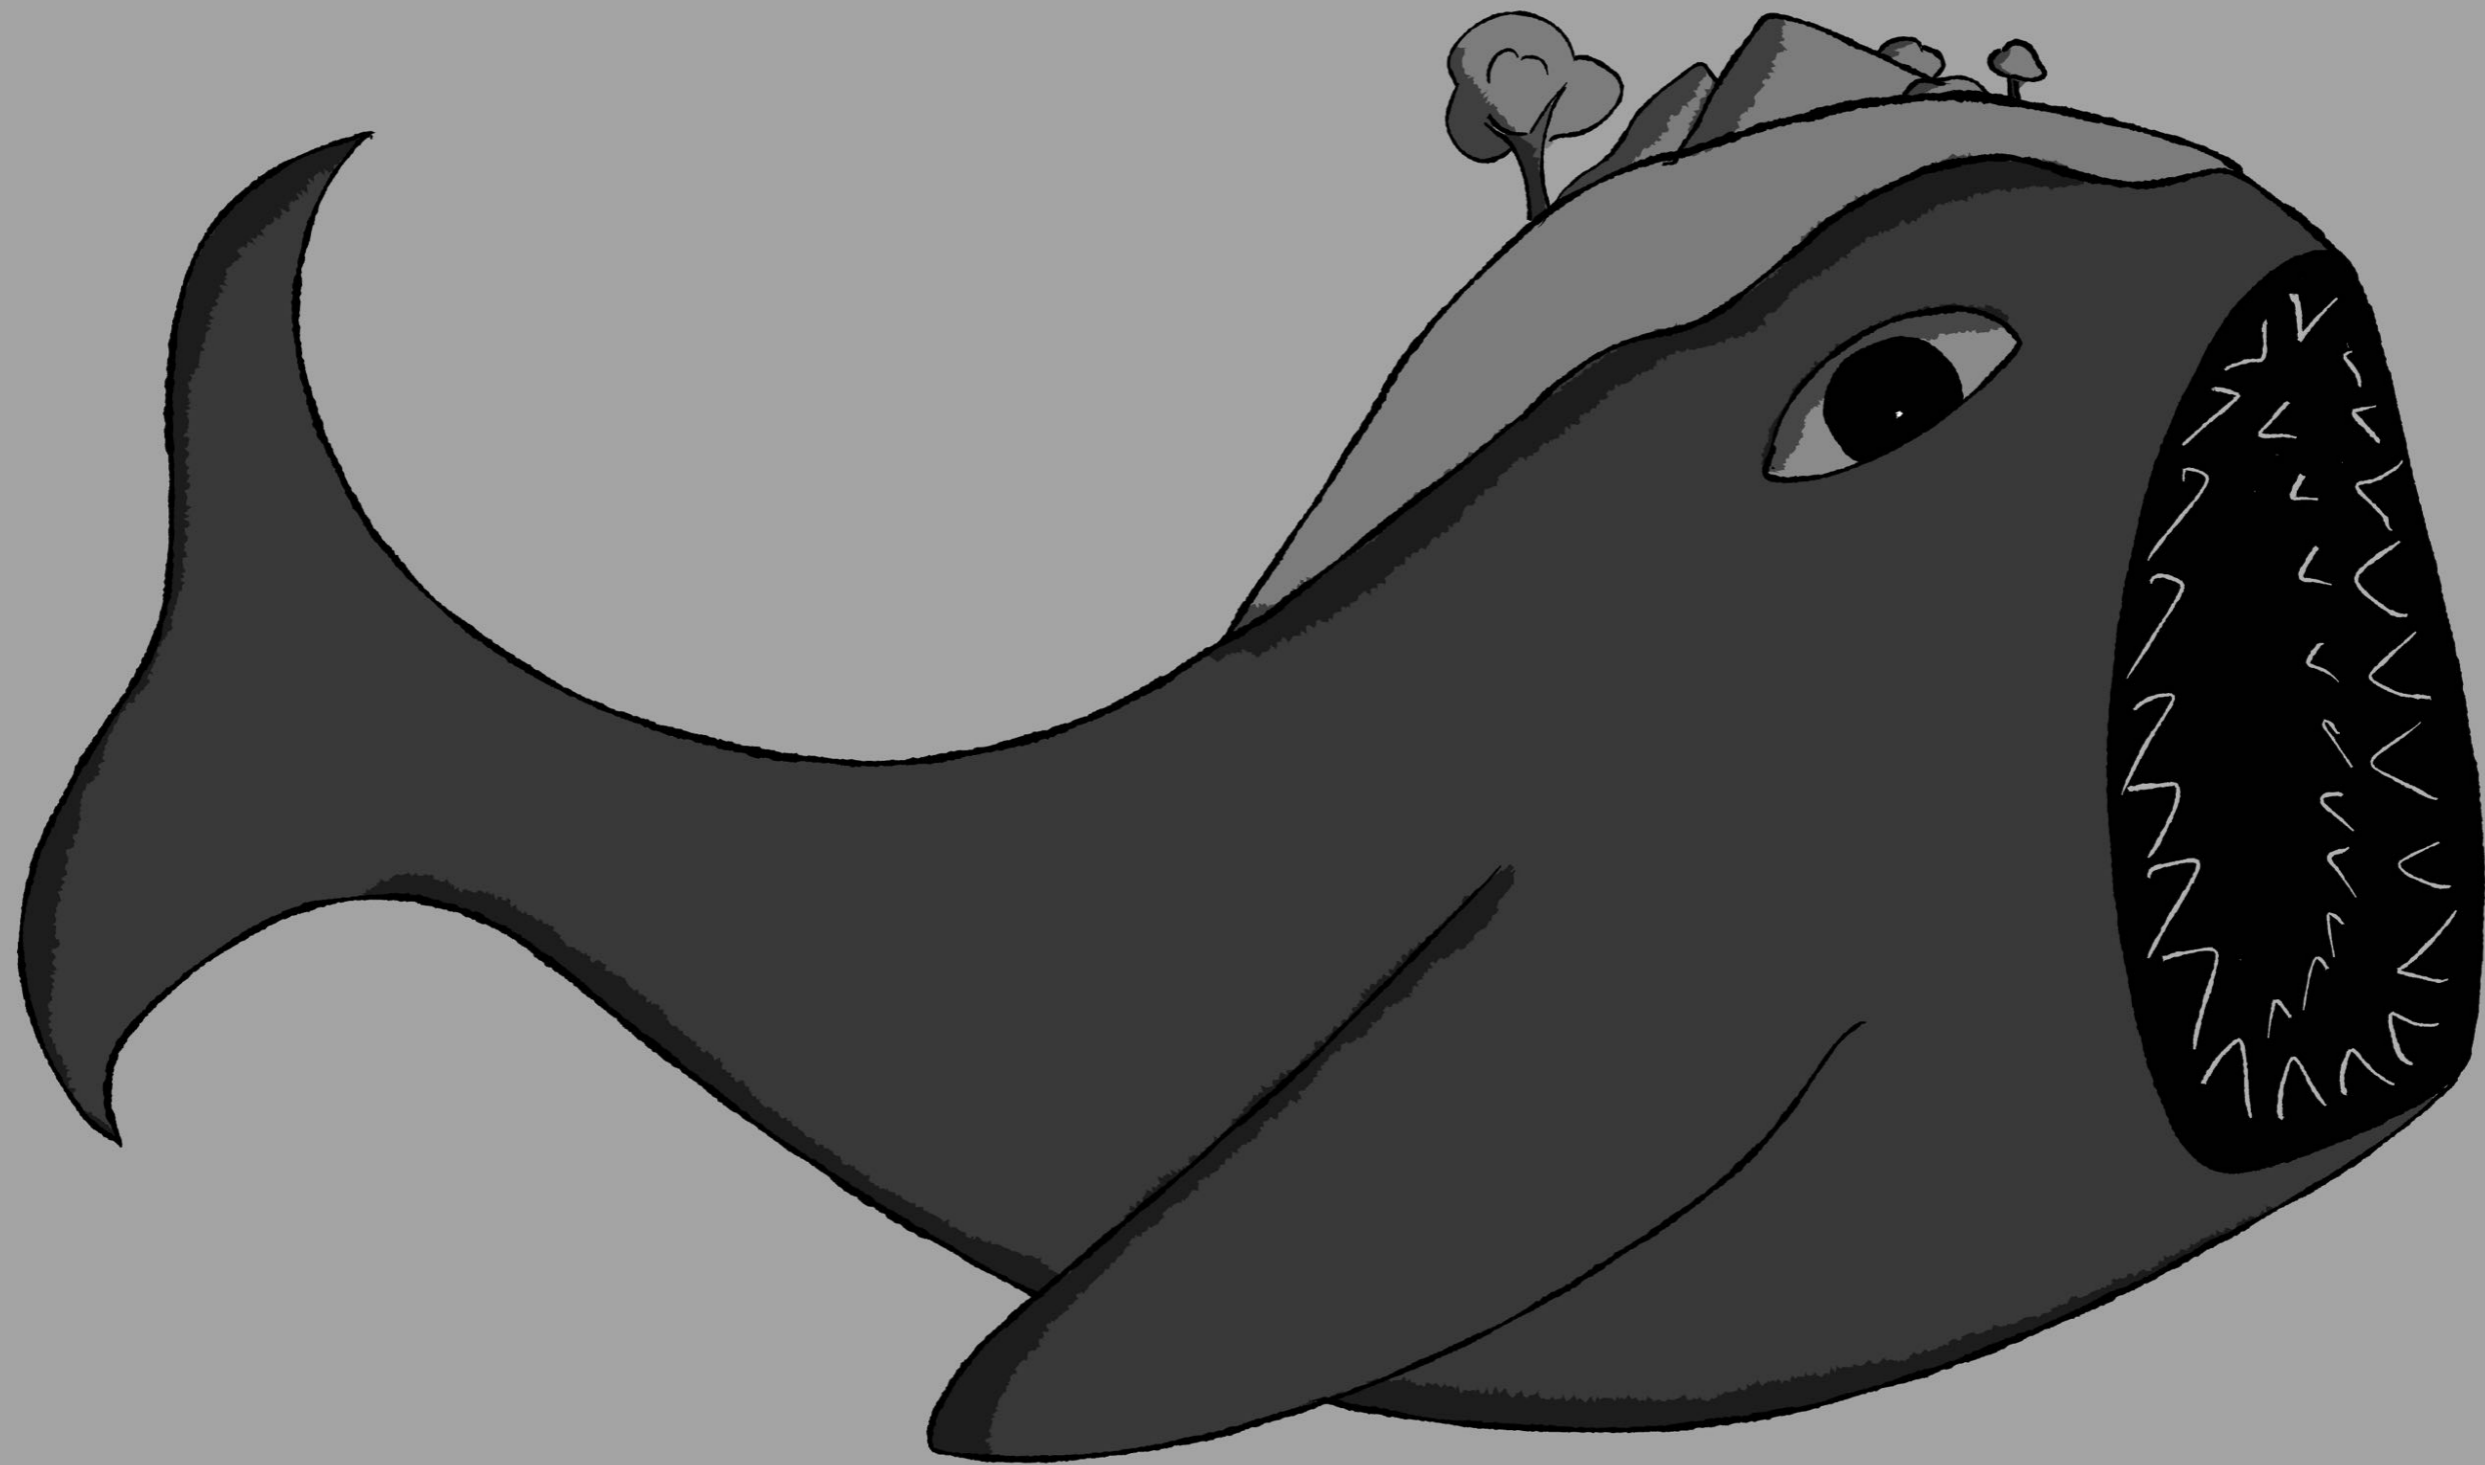

For this project I also created concepts of my niece and my late dog in my art style. I drew my niece wearing a yellow jumper with her favourite toy on it Mr Foxy. For my Dog I drew her with a bow with flowers on it since she had one on her harness. Another thing that I did for this project was create a full colour spread which I chose the one where my dog is barking loudly.

03: Books & Story telling

For this Project I was to create a comic about a mystery. I was given a list of mysteries which I picked The Mary Celeste. The mystery is about a ship that was found abandoned. we where to create our own ending showing how we believe what happened to the people in the mystery. for the Mystery I created concept arts of the people that was on the ship and the mosnter devil whale which I have created for the antagonist in this mystery.

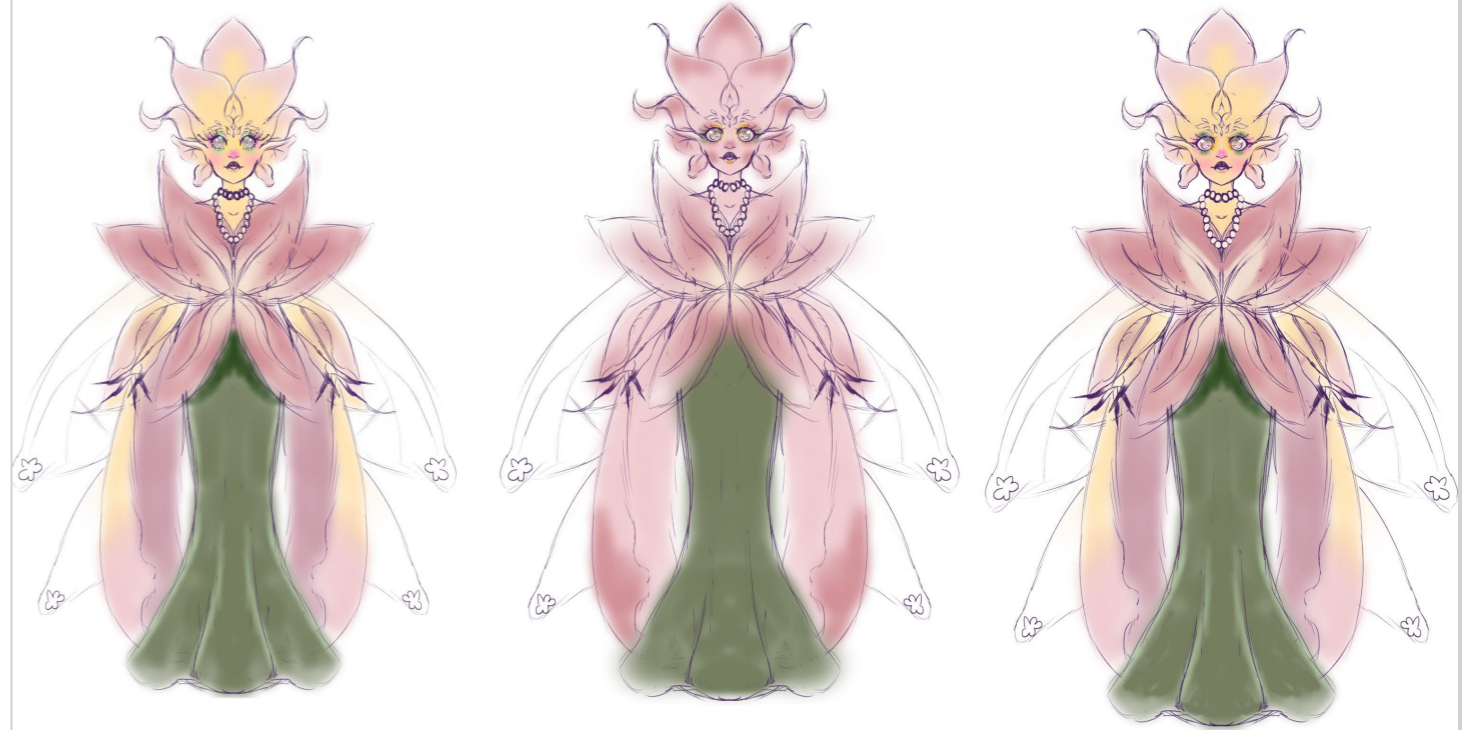

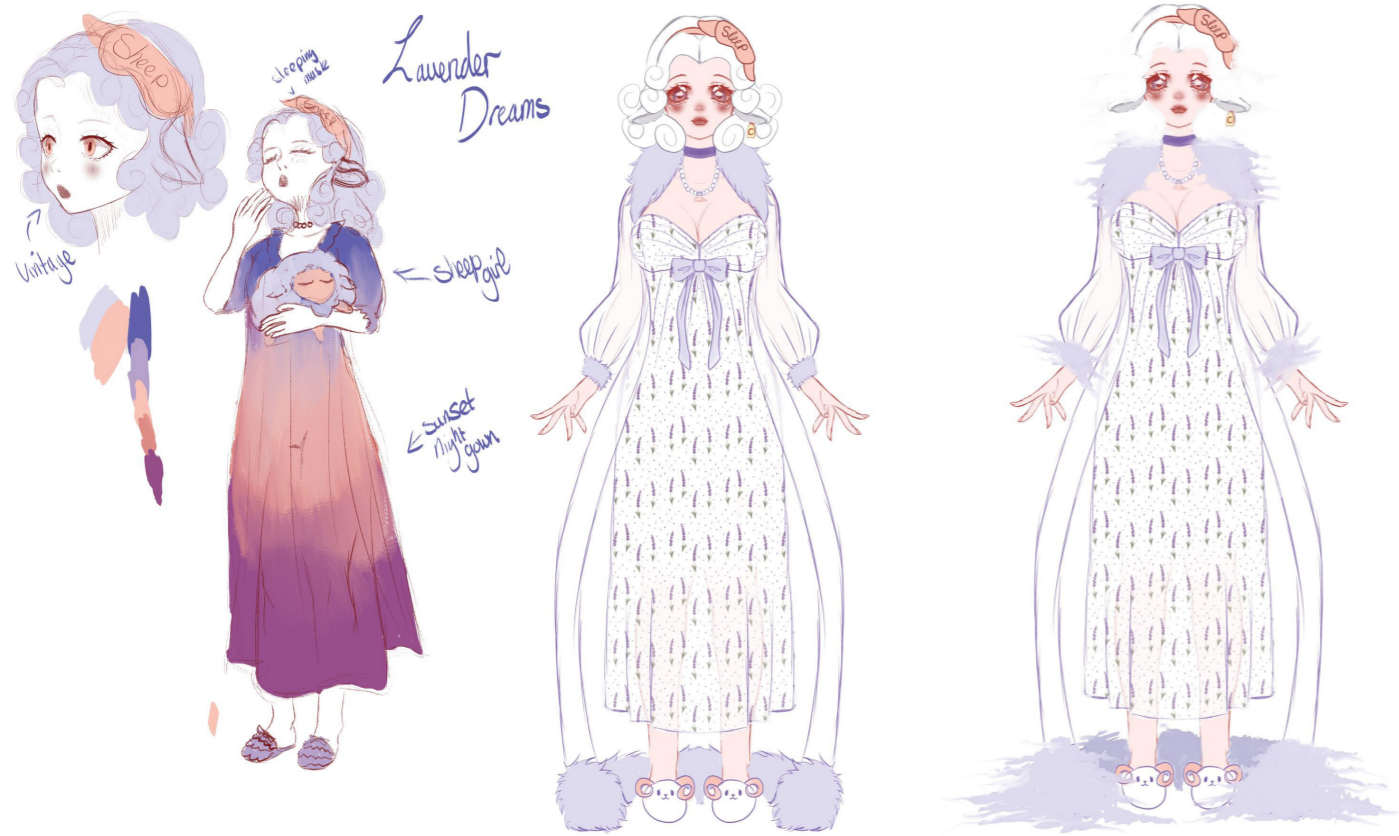

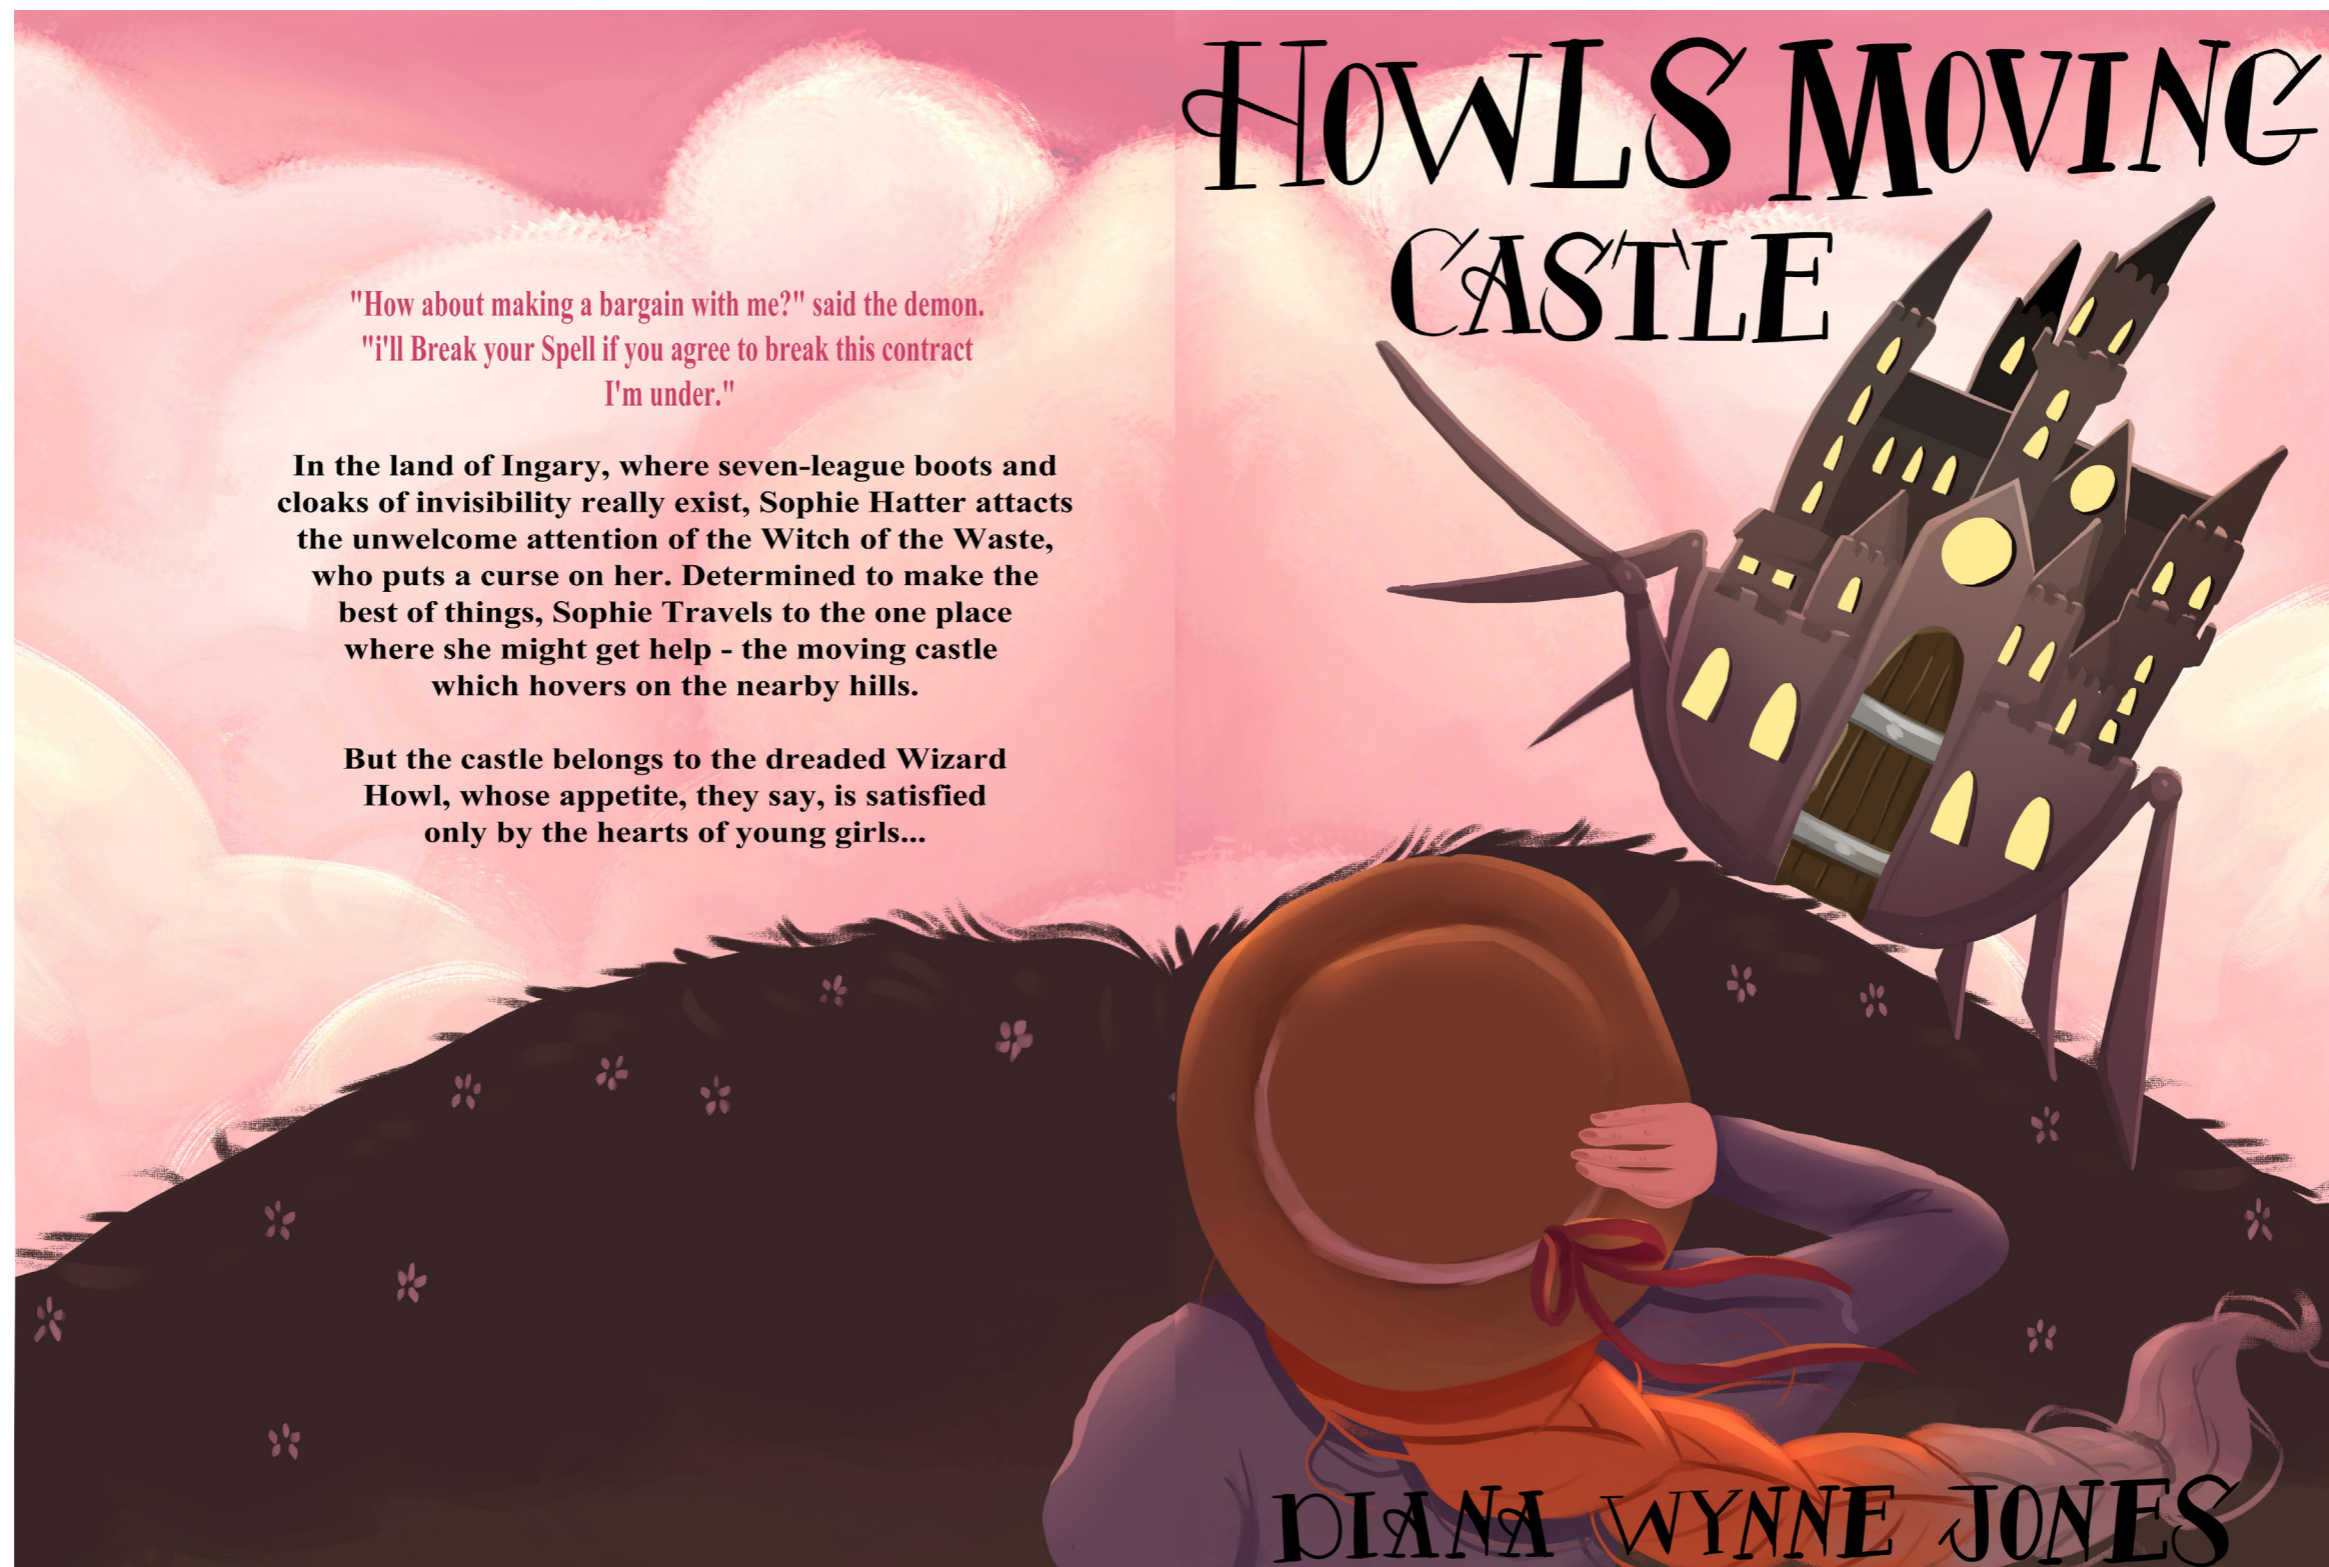

04: Negotiation Illustration

For this project I had to create my own Brief so I created one based on Character design for Virtual YouTubers. For this brief I created 4 concept arts, and 4 Character reference based off 4 themes: Flower garden, cyberpunk, dreams, and carnival. For the final Character design I picked the cyberpunk theme where I created a Cyber Thief Fox character. For the large model I created two outfits for it and for the chibi I picked one of the outfits and simplified it.

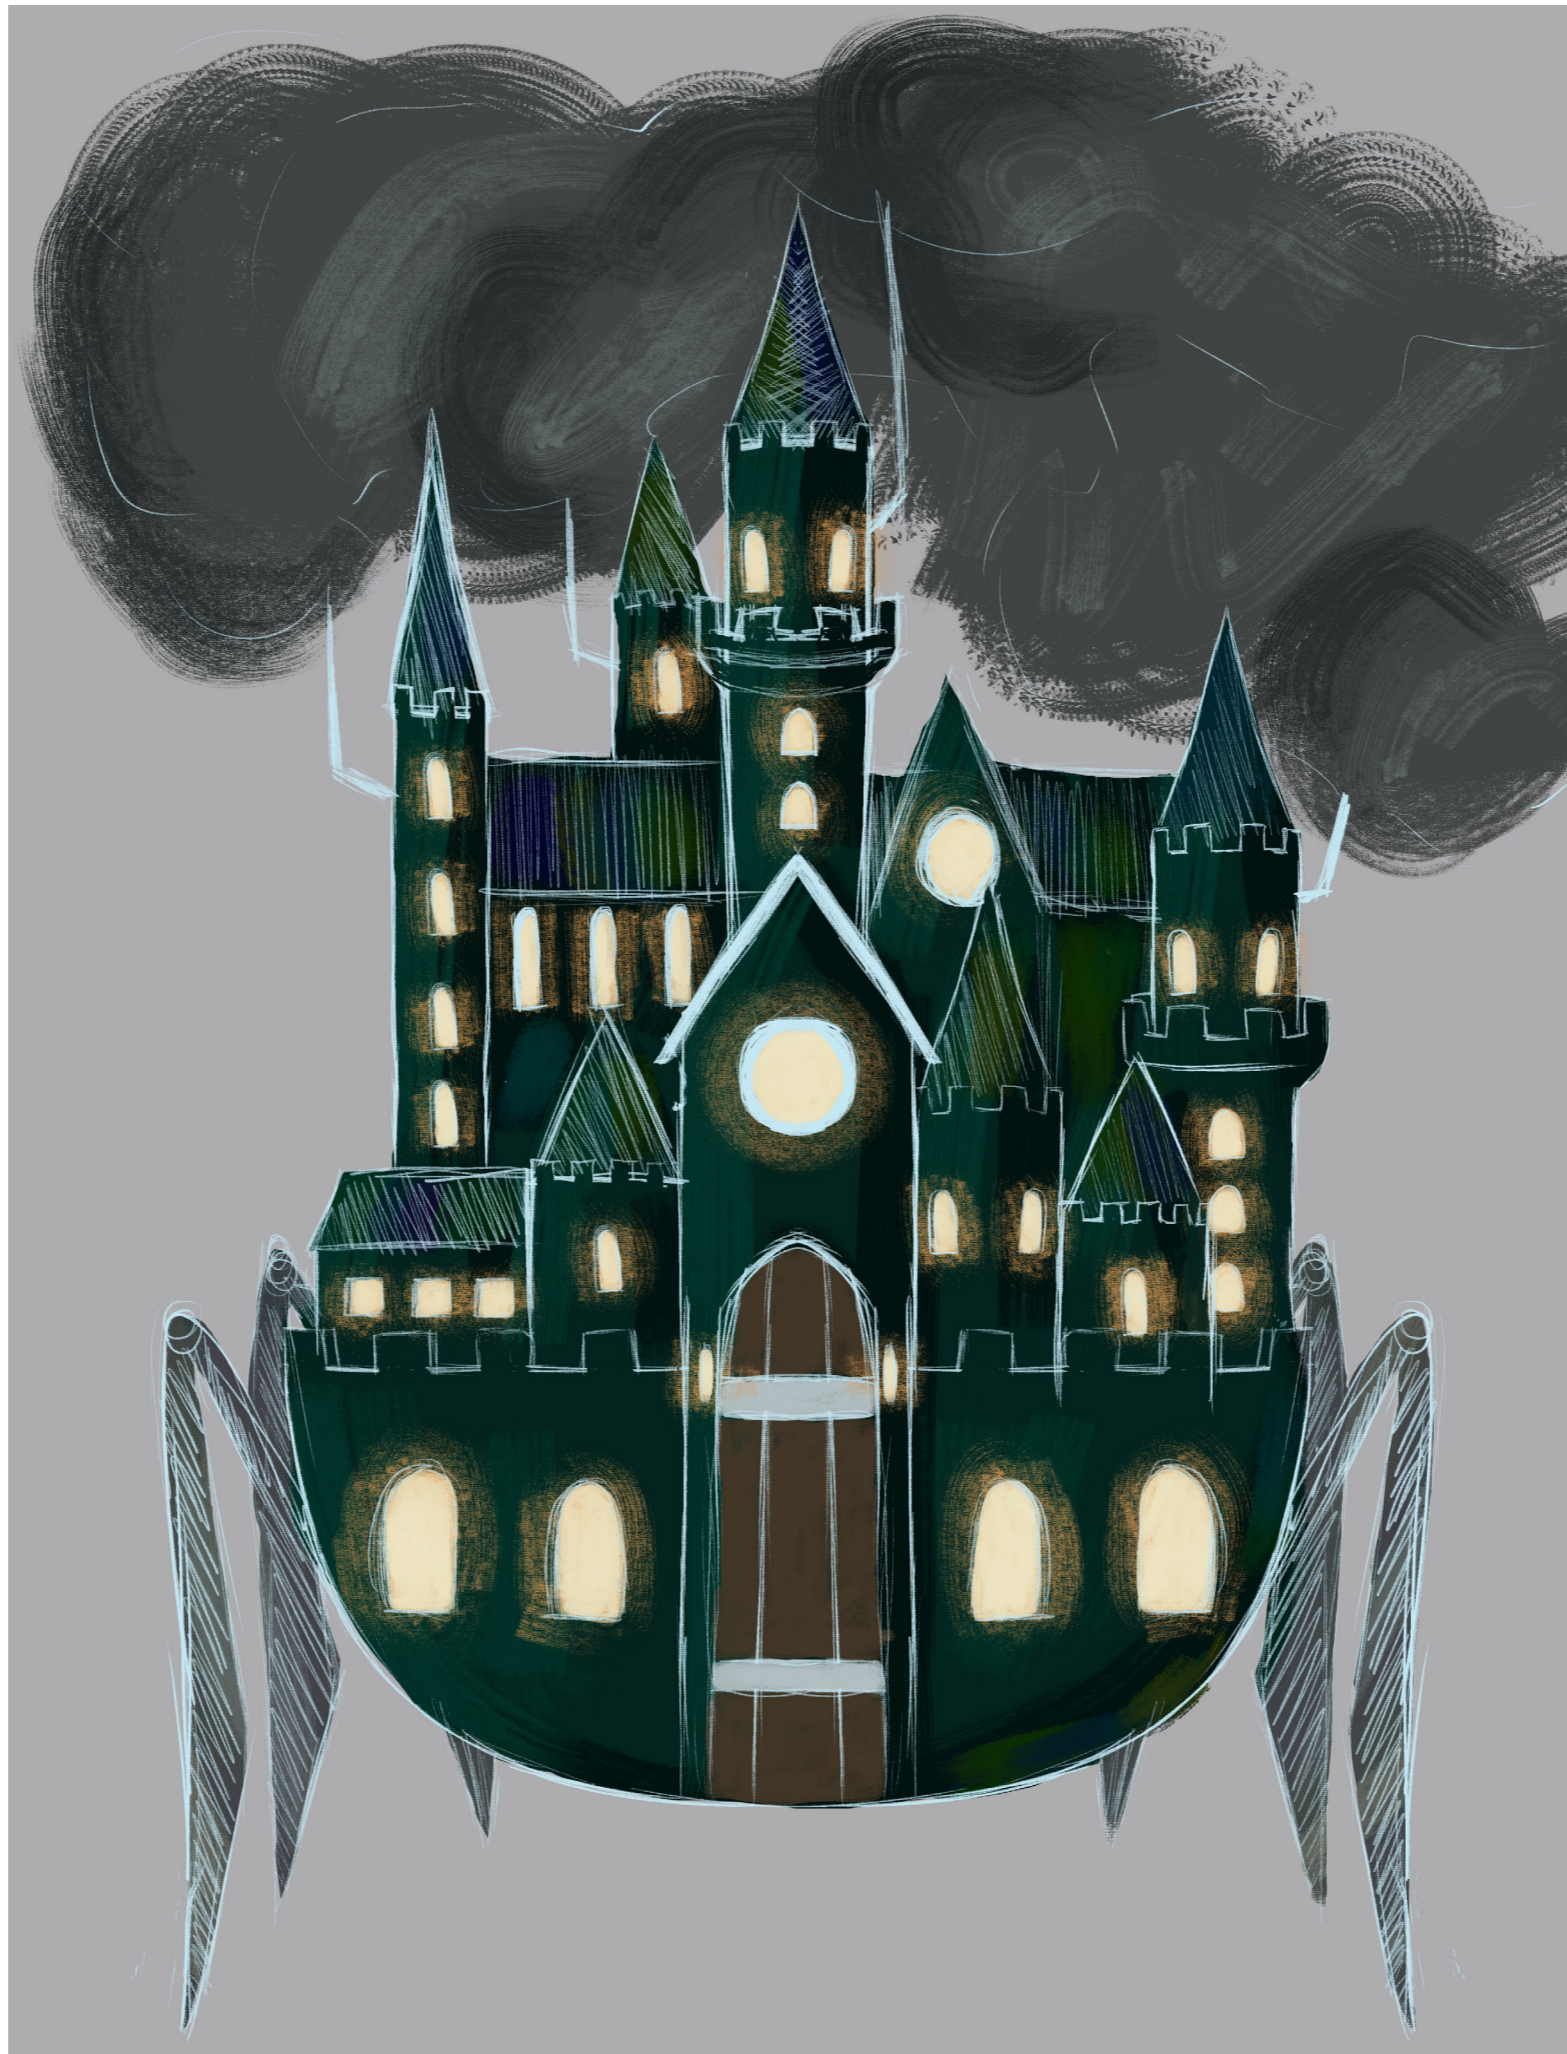

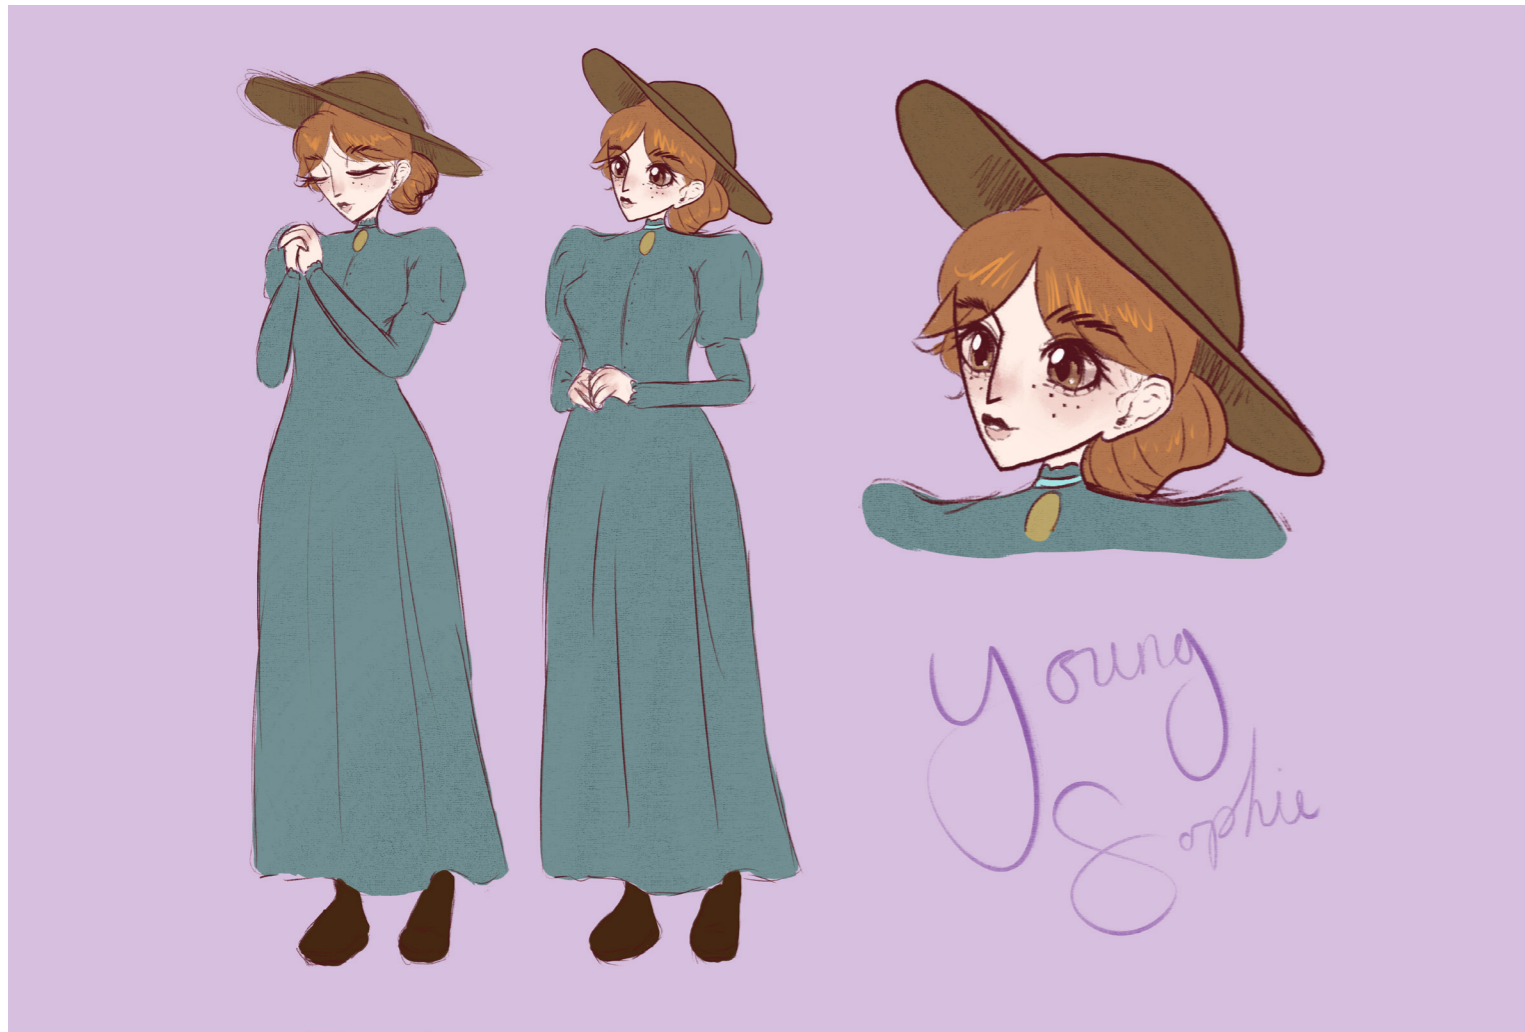

05: Professionalism & Commissions

For this project I was to create something for the world illustration contest. I picked the topic classic novels. For my model of choice I picked Howls Moving Castle because I believe I can create some good concepts with it. For the illustration I created a book cover which I drew of Sophie looking at the castle climbing a hill.

these are the concept art I have created of young Sophie and the wizard Howl. for my character design I fused a mixture of them in the book and in the movie to make unique design. For sophie I drew her reserve and dressing more maturely. For Howl I drew him looking smug and wearing a expensive looking cape. I also experemented with a different artstyle for this project becuase I wanted to make my style diverse and I thought it was fitting for the story.
