

Chloe Walton

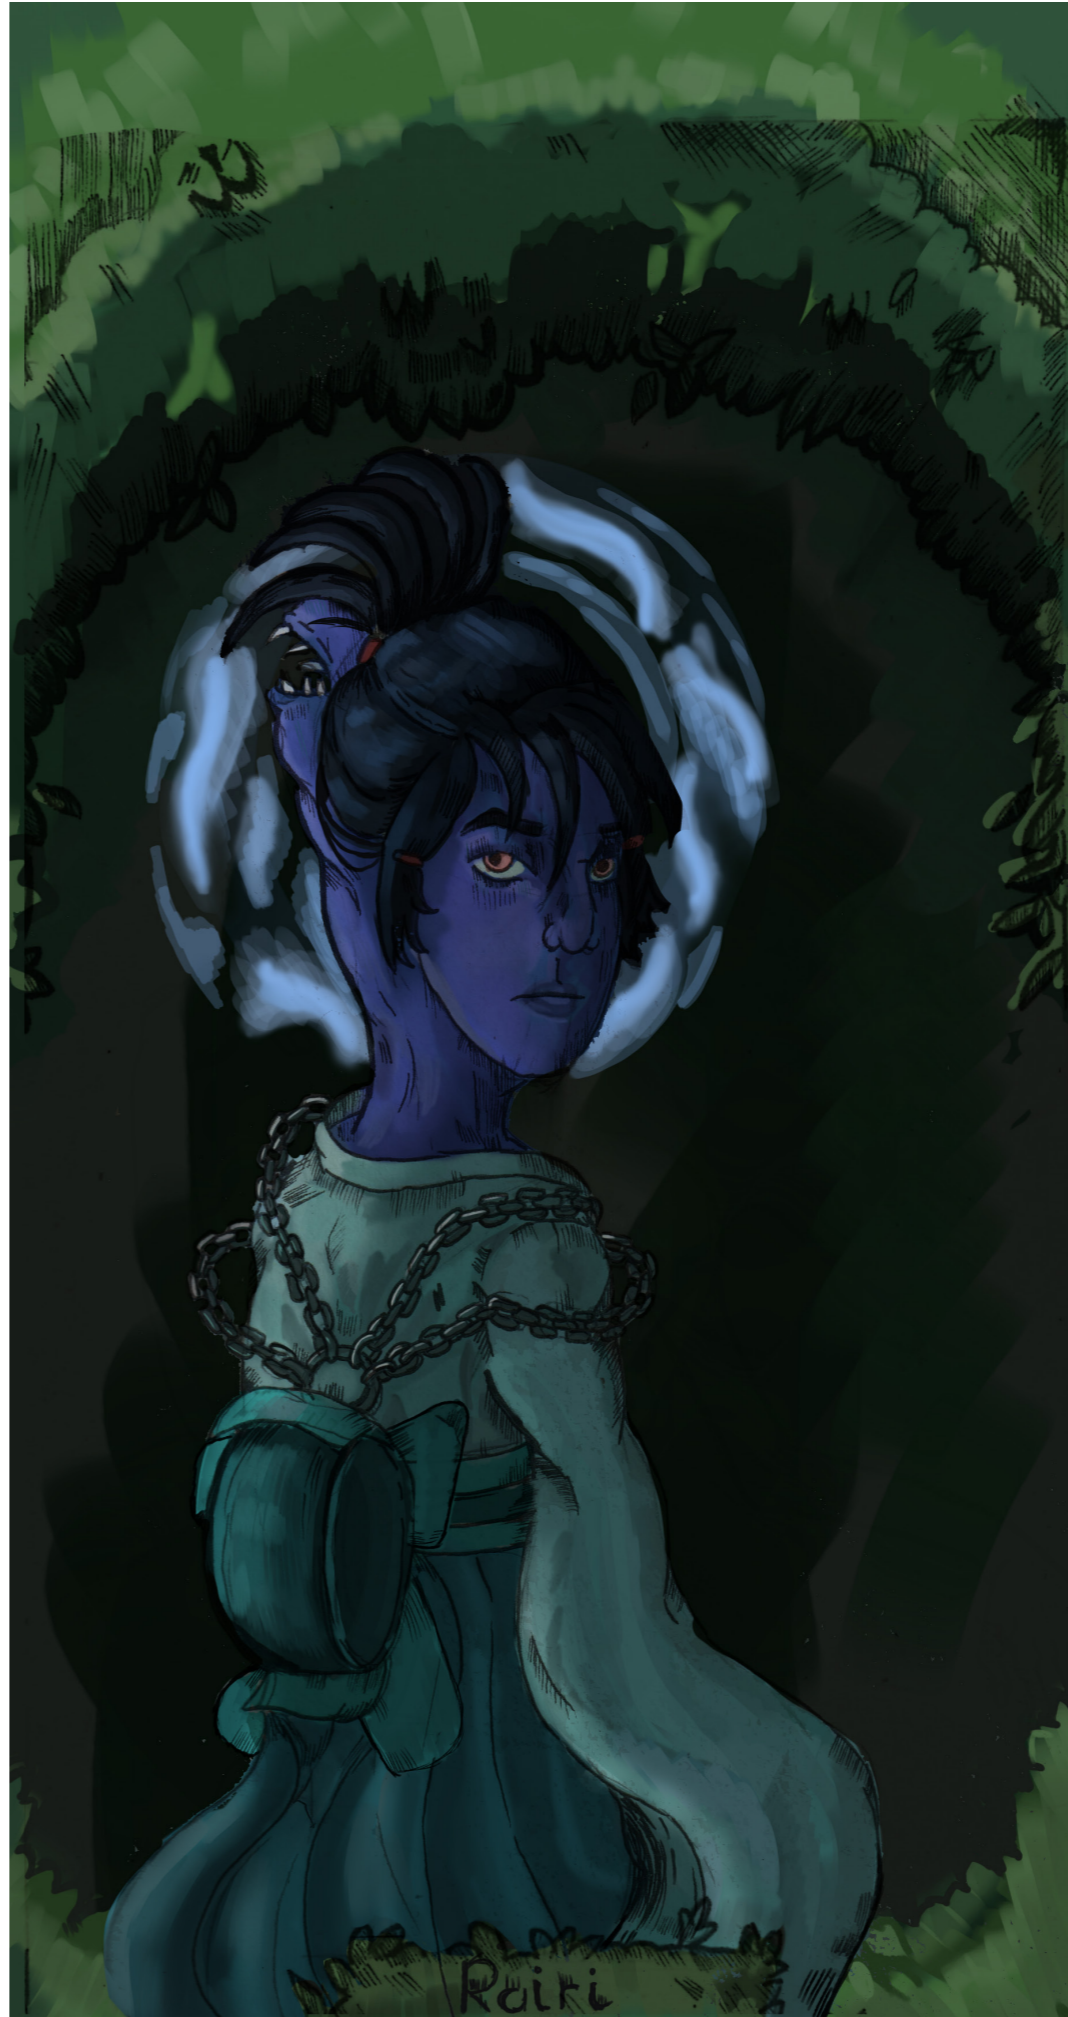

Illustrating character design and
horror for your pleasure.

01: Creepy cuties- Negotiated

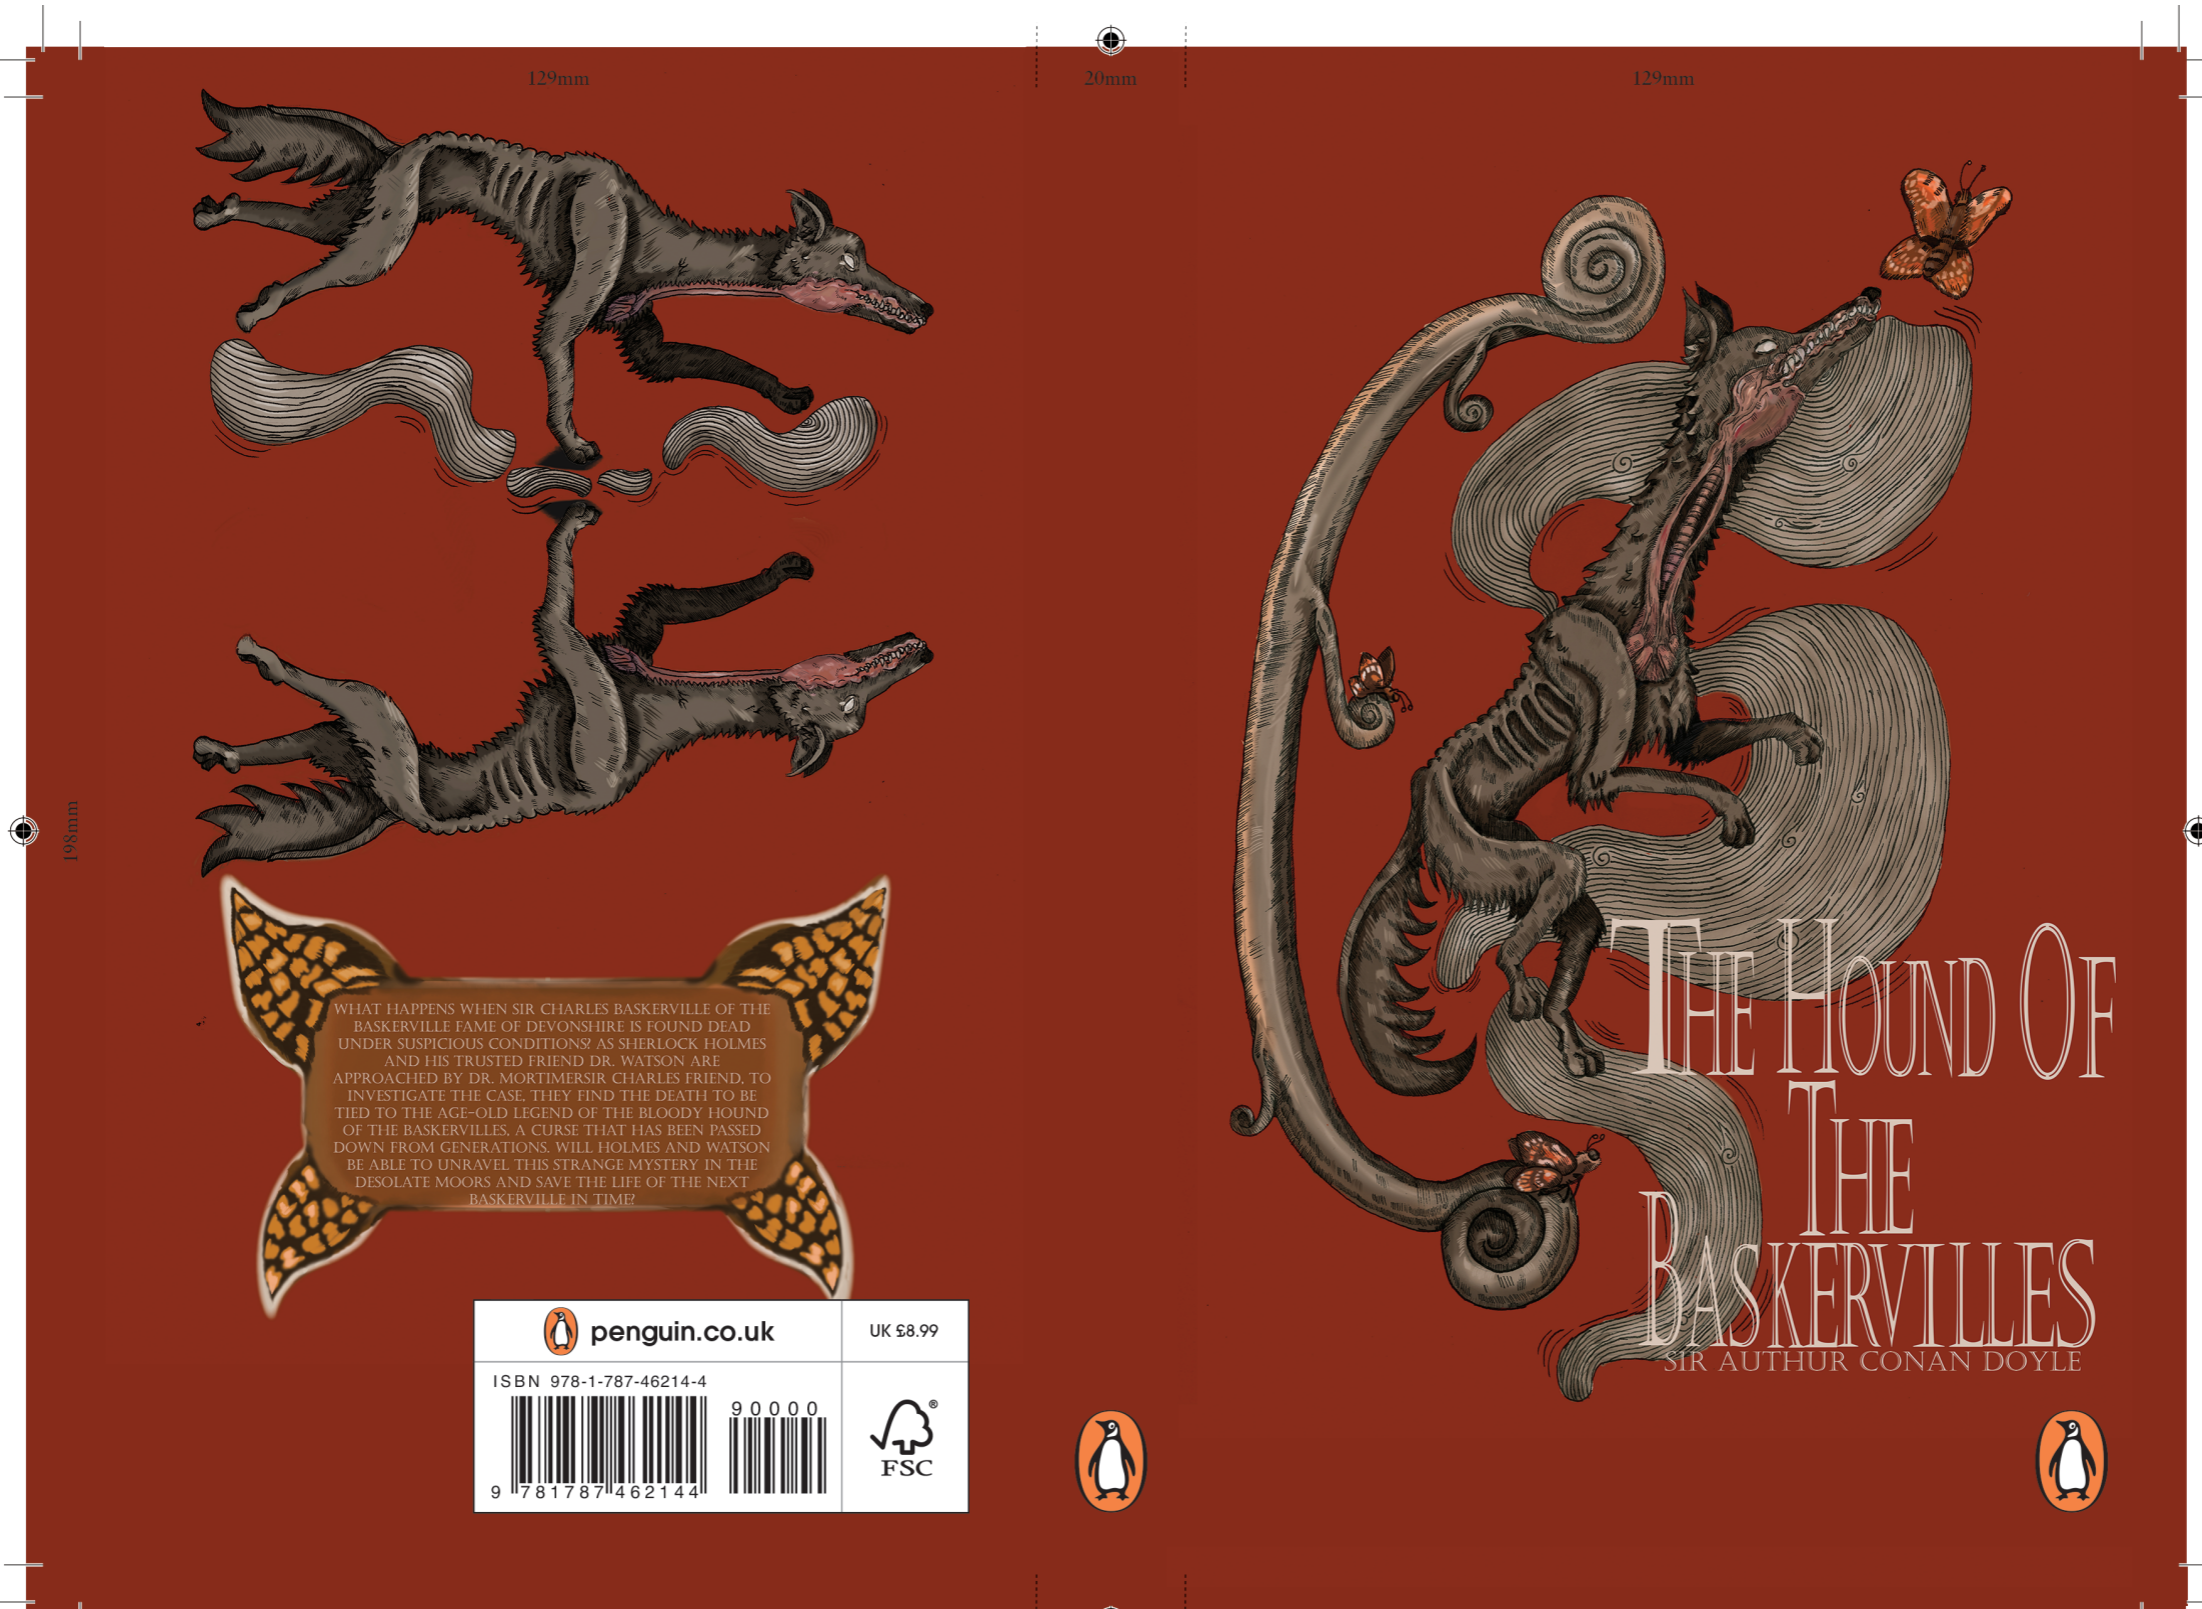

This project had the goal of creating 4 varied character designs inspired by different legends/ folklore from across the world. The goal with the character designs was to look more into historical interpretations of the characters rather than the more modern ones today.

02- World illustration awards- Book cover

This project was to create an illustration following one of the themes set by the world illustration awards. The brief I chose for this was to make a book cover and the book I chose was 'The Hound Of The Baskervilles' by Sir Arthur Conan Doyle. For the subject, I chose the hound as it is an important part of the book and as it is the namesake.

01: Lincoln castle merchandise

For this project, i created two different illustrations to work as packaging for a hypothetical product at lincoln castle. I focused on the history of ghosts and legends from the castle with thw two I choose being the ghost rider and the Belvoir witches.

0: Self promotion

This project had three main parts; Create a business card, a promotional item and a professional website for when we go into industry. My theming for this project was a bird with its brain exposed as the name i chose for my socials and my website is 'Birdbrainsoup'.
